WHAT A CHICAGO DOCTOR THINKS OF CARNEGIE'S

Dr. K. A. Norderling of 1684 N. Clark street, Chicago, writes: "Among the great number of different Malt Tonics to be found in the market, I consider Carnegie's imported porter as holding the first place and can recommend it with pleasure."

Fully forty people in every hundred in British Columbia at this season of the year positively need either good bottled porter or a doctor's prescription for a "builder up." It is a fact that every thirty-eight of these people will find Carnegie's Swedish Porter as good for them as any tonic a physician may prescribe. Their own doctor will probably tell them so because Carnegie's Porter, with all its rich nutriment and with all its tonic, nerve-steadying value makes the stomach do its work better, helps digestion, puts into the blood the kind of nourishment it can use best and helps supply the lack of blood that makes people anemic.

Carnegie's Porter may be procured at any hotel, bar or restaurant. Get it for home use from your dealer. Only in bottles, but "splits" if preferred.

ODD CHARGE FROM GERMAN

Has Dream of British Machinations Against His Fatherland

TO ANNIHILATE GERMAN VESSELS

Supposed to Have Occurred at Time of Dogger Bank Incident

BERLIN, Nov. 6.—The serious charge that Great Britain was involved in machinations against Germany at the time of the Dogger Bank incident on October 22, 1904, is brought by former chancellor of legation Von Rath, who served at Berlin and Constantinople, in today's issue of the Tageblatt.

The Dogger Bank incident referred to was the firing on the Marmorock trawling fleet off Hull by the Russian Baltic squadron under the delusion, as alleged, that the fishing smacks were Japanese torpedo boats.

Herr Von Rath accuses Great Britain of having stationed warships off Vigo and six submarines in the vicinity of Heligoland preparatory to sinking the German warships in the event of Germany's taking sides with Russia in the war then progressing. The commanders of the British vessels, according to the writer, had direct orders from Downing street to wait for the Germans and blow them into the air in the event of suspicious movements.

Other papers this afternoon comment on the article from various standpoints. The Vossische Zeitung ridicules the charges against Great Britain, but the National Zeitung, although placing the responsibility for the charges on Herr Von Rath, says: "We do not forget for a moment that England took these measures."

Brutes May Be Lynched
STANSTEAD, Que., Nov. 6.—Bertha Giffin, the seven-year old daughter of A. H. Giffin, former postmaster of Stanstead, was ill-treated last night by two men, and she now lies in a precarious condition at her parents' home. The perpetrators of the crime have so far made good their escape, but armed posses of men are hunting for them in every direction. The whole country is extremely excited, and it would not be surprising if the villains were shot to death on sight.

FOUR MEN KILLED

Strange Accident Occurs to Pennsylvania Railway Train in Jersey City

NEW YORK, Nov. 6.—Four persons, all railroad employees, were killed, and six passengers seriously injured, and others slightly injured today in a collision between Pennsylvania railroad train No. 104, from Philadelphia, and an engine running light on the elevated tracks of the railroad in Jersey City. The engine and all the cars, except the rear one on the train, left the rails, and the smoking car and both engines were overturned.

List of the dead: John Stille, of Trenton, N.J., engineer of train 104; John Monroe, of Perth Amboy, engineer of light engine; James McClure, of Newark, fireman of light engine; Specio Droski, track walker. The circumstances of the accident were unusual. The wrecked train left Philadelphia at 5:58 o'clock this morning, and was running at full speed along the elevated structure in Jersey City. Near Brunswick street it met an engine running light on the parallel track. In some manner, the light engine and the passenger train crashed together, the engine sweeping the inbound train. Practically all the injured received cuts from flying glass and bruises.

Engineer Steele was taken out dead from beneath the tender of his overturned engine. The light engine was also overturned by the crash, and Engineer Monroe and his fireman were killed. The fireman of the passenger train had a miraculous escape, the side of the engine cab on which he sat remaining intact after the shock, while the other side, occupied by the engineer, was reduced to kindling wood.

The wreck caused a serious interruption to traffic, the tracks being blocked for several hours.

Harrington, the tower man, was discharged by the police after he had made a statement, which was substantiated by railroad officials, that the switches were all properly set at the time the accident occurred. An investigation by the railroad officials led to the declaration that the accident was probably caused by a broken rail near the switch.

Governor of Philippines
WASHINGTON, Nov. 6.—W. Cameron Forbes, vice-governor general of the Philippines, has been called by President Taft as governor to succeed the present governor general, James Smith, whose resignation has been accepted to take effect on November 11.

Spaniards and Moors
MELILLA, Nov. 6.—After the day's march the Spanish division under the Infanta Carlos seized the important strategic point of Hldm without firing a shot. This will be fortified. The Moors made a hasty retreat. A squadron of the King's regiment, however, had an engagement with the tribesmen, and in a brilliant charge several officers were killed.

Dramatic Suicide in Paris
PARIS, Nov. 6.—The police today established the identity of the man who committed suicide in a dramatic manner at the Montmartre cafe last night. He was Louis N. York, an American, who arrived here recently and tried to obtain funds for American circus exploiters. He had asked the orchestra in the cafe seven times to play a waltz, "When Love Dies," and as the last strains died away he placed a pistol to his head and shot himself dead.

WOULD ARBITRATE WITH COMPANY
City Takes Further Step in Dispute With Silver Spring Brewing Company

While the Silver Spring Brewing company evidently does not know anything about the proposed proceedings which the city is to take relative to forcing the company to move off an old wooden building situated at the rear of the new brewery recently erected on the Esquimalt Road and which the city claims, encroaches on a portion of Lime street, the city, according to a notice of motion which will be considered at tomorrow night's council meeting, will appoint an arbitrator to settle the amount of compensation which shall be paid by the corporation to the company for the moving of the building from off Lime street. This step is to be taken, following the now famous tender of the \$10 gold piece which was recently made by the city to the company and promptly refused by the latter. If the company refuses to arbitrate, court proceedings will in all likelihood be taken to compel the company to remove from off the thoroughfare. This the company has up to date steadily refused to do. The building has been there for many years and the company claims that it has a prescriptive right to that part of Lime street on which the building stands.

AL KOOTENAY FOR McBRIDE
Eastern District Gives Ministers Most Enthusiastic Welcome

RAILWAY POLICY WELL RECEIVED
Prospect That No Liberal Will Be Returned From District

CRANBROOK, Nov. 6.—East Kootenay has enthusiastically received the railway policy of Premier McBride. Following a most successful meeting at Fernie on Friday, the Premier and the Attorney-General addressed the miners at Moyle this afternoon, and spoke at a big Conservative rally at Cranbrook tonight.

At Moyle the reception exceeded all expectations. The party was cheered at the hall, and the miners came to the station and cheered the Premier as he took train for Cranbrook. At this city a huge audience completely filled the auditorium, and gave the ministers a warm welcome, while Tom Cowan, the Conservative candidate, was greeted with musical honors. Attorney-General Bowser's forecast that the Liberal party would be completely annihilated in Kootenay seems to be well founded.

Great Fernie Meeting
FERNIE, Nov. 6.—Hon. Mr. McBride and Attorney-General Bowser reached Fernie yesterday evening on schedule time, in the midst of a steady downpour of rain, which has continued for several days. Notwithstanding the bad weather, the new miners' opera house was filled to overflowing with a huge audience, made up of people of all shades of political belief, and containing a good proportion of ladies, who braved the weather to hear the Premier explain his railway policy. Dr. Bonnell, president of the Fernie Conservative association, presided, and W. R. Ross, late member and present candidate, made a short address before the Premier took the floor, and for an hour talked lucidly on his railway policy. Mr. Bowser followed in his usual brilliant oratorical style, closing the largest political meeting yet held in this city.

The campaign can be said to be in full swing now, with W. R. Ross, A. I. Fisher, and J. H. Harrington, representing the three parties, contending for the honor of representing the riding in the next parliament.

HARD FIGHTING IN NICARAGUA
Revolutionists Said to Have Routed Government Force in Battle

BLUE FIELDS, Nicaragua, Nov. 6.—News was received here this morning by General Estrada that in an engagement near Gutuas, Chontales province, on Thursday and Friday, revolutionary forces won a decisive victory against six hundred government troops. The reports state that a hundred of the government troops were killed or wounded, and that the loss of the insurgents was slight.

General Diaz had sharpshooters in the trees, who picked off a large number of government troops as they advanced. The insurgents still hold the San Juan river district.

Reports from Managua yesterday stated that the government troops had defeated the revolutionists in the engagements in Chontales province on Thursday and Friday, with heavy losses to the Estrada followers. The same despatch stated that General Diaz, who was defending Faso Las Lajas, with four hundred men, was routed.

Shot His Father.
ST. PAUL, Minn., Nov. 6.—Jens Johnson, aged 33, shot his father, eight miles west of Calondonia, Minn., killing him instantly. Johnson is in jail and is thought to be insane.

Japanese Appointments.
TOKYO, Nov. 25.—The appointments of Asura Uchida, ambassador to the United States, and of Minori Arakawa, formerly minister to Mexico, as minister to Spain, were gazetted today.

Father's Awful Crime.
GREENSBURG, Nov. 6.—Seized with an impulse to kill, E. J. Perry, a former mayor of this city, today shot three of his children, wounding one fatally, and then committed suicide by firing a bullet into his heart.

Drowned in Brook.
RICHMOND, Que., Nov. 6.—Wm. Moore, 40 years old, was drowned in Mute brook yesterday. He is supposed to have fainted while trying to get some water, fell into the brook and was drowned. He has been married only a few months.

Registrar Jorand Dead
NELSON, Nov. 6.—Word reached here today of the death of H. R. Jorand, at Portland, Ore. Deceased was district registrar here and a barrister. He had been suffering from heart trouble for some time, and was absent on sick leave at the time of his demise. He leaves a widow and family.

NEW DEPARTURE IN THEATRE LINE
Great Palace of Dramatic Art in New York Formally Dedicated

ring of men and women prominent in letters and the arts, finance, statecraft and society.

Senator Elihu Root and Governor Hughes delivered addresses. Governor Hughes said in part: "This enterprise marks an important step in the progress of this city. This is not a dramatic club. It is not intended to be for the entertainment of the few. This should be regarded as the people's theatre, making an appeal to the intelligent public, and it should be generously supported by the public. We cannot conceive of a state of society in which the dramatic instinct of our nature should not have play. It is impossible to view otherwise than with solicitude a careless and indifferent attitude on the part of the intelligent members of the community towards dramatic representations."

A dress rehearsal of "Anthony and Cleopatra," with which the theatre will open next Monday night, was given tonight.

Succeeds McCarren
NEW YORK, Nov. 6.—The executive committee of the Democratic party in Brooklyn decided tonight upon John B. McCarren to succeed the late Senator McCarren as leader of the party. Mr. McCarren was defeated for the borough presidency of Brooklyn in the recent election.

Germany's World Policy
PHILADELPHIA, Nov. 6.—Declaring that the world policy of the German empire is purely commercial and without any territorial ambitions or deep-seated designs against other states, Count Johann Heinrich Von Bernstorff, German ambassador to the United States, addressed a largely attended meeting of the American academy of political and social science here tonight on "The Development of Germany as a World Power."

HEAR ADDRESSES ON THE ISSUES
Conservative Workers Organize and Prepare for Campaign

A meeting of the Conservative workers in wards one and two of the constituency was held in the association rooms, Government street, last night. The meeting was well attended, and enthusiastic to a degree, a number of speeches being delivered and listened to with the keenest interest.

W. H. Price, the secretary of the association, occupied the chair, and ably outlined the cause of the gathering, which was to appoint chairmen for wards one and two, and discuss the details of the work of the organization. He then called upon J. S. H. Matson to address the meeting.

Mr. Matson said that while they all anticipated a sweeping victory, this fact should not deter them from hard work. There was danger in being over sanguine. The goal which they should hold in view was "to make the majority as large as possible." Why the electorate of British Columbia had faith in Premier McBride was not so much because he had enunciated a railway policy, but because he had given the country stable government for seven years. He (Mr. Matson) believed that the railway policy was one conceived in the best interests of the province. If the people endorsed it the results in development and along other lines would be almost incalculable.

Some Facts
There were facts, said the speaker, connected with the projected railway and Barkley Sound Railway, which he believed were not generally known, and if he had been correctly informed, the timber resources which this railway would tap would, from reliable figures, give an output of 20,000,000,000 feet. Working on the estimate of 6,000 feet per acre, that is, each acre, and supposing that two trains, or thirty cars each were shipped every day, it would take 65 years to exhaust the supply upon which this railroad had to draw. In the Barkley Sound district also there were iron deposits as great as those in any district of Canada. Marble of excellent quality in abundance. There were deposits of fire and brick clay sufficient to supply the province for generations. The agricultural resources there were practically untouched, there was a large tract of country which, if developed, would, he believed, become one of the greatest fruit producing districts in the province. The land was naturally well watered. There would be no need of irrigation. Expert knowledge also stated that the climatic conditions in the Barkley Sound district were favorable to stock raising, which would naturally follow development.

The construction of the Victoria and Barkley Sound Railroad would mean the expenditure of from \$4,500,000 to \$6,000,000. All this would be expended at or near Victoria. It meant business for the merchant, work for the mechanic and workman. If the people of Victoria and British Columbia endorsed the policy of the McBride government, he felt perfectly confident that within five years Victoria would have a population of 100,000 people. Today there was every indication to show that Victoria had about 50,000.

In conclusion Mr. Matson stated that he believed that the past record of Premier McBride would return him to power with a much increased majority.

All Well in Vancouver
Osborne Plunkett, president of the Vancouver Conservative Association, was the next speaker. He said that the campaign in Vancouver was going on very satisfactorily. He believed that no matter who the Liberals might have put in the field would be beaten at the polls. The Conservatives were strongly organized, and were confident of victory.

"The only possible fear as to the (Continued on Page 2.)

War in the Air
PHILADELPHIA, Nov. 6.—"The next war will be decided in the air," said M. Herring, who took a prominent part in the aviation contests last summer in France, tonight in an address before the Engineers' club of this city. No body of men, he declared, within range of a dirigible war balloon could possibly help being wiped out. Some of the German war dirigibles have carried three rapid fire gatling guns, said Mr. Herring, and have been able to keep up a continuous fire for two hours.

Surgery on Board Ship
NEW YORK, Nov. 6.—With the ship rolling in a heavy sea and ploughing along at the rate of 21 knots, a successful operation for appendicitis was performed upon a passenger on the last eastward trip of the steamer Campana, which arrived today from Liverpool. Charles Baxter, a steward, was the patient, and the operation was performed by Surgeon Robert Bruce, of the Campana, assisted by Sir Alfred Keogh, surgeon general of the British army, and Dr. Owens Williams, a Liverpool physician, who were returning together from the medical congress held in Washington. It was thought that sailing down would make the ship roll more, consequently the engines forced the big liner along at 21 knots speed all the time the operation was in progress, a period of forty minutes. Baxter is convalescing satisfactorily, and is now in a hospital in Liverpool.

GOING SLOW WITH REFORM

Senator Aldrich Talks of Work of National Monetary Commission

DEFINITE PLAN NOT YET FORMED

Appeals to Chicago Gathering for Counsel and Cooperation

CHICAGO, Nov. 6.—After an elaborate dinner tonight at the Congress Hotel, United States Senator Nelson W. Aldrich, of Rhode Island, chairman of the National Monetary Commission, explained to the members of the Commercial Club of Chicago, the operations of the commission, and then referred in a general way to its purposes.

There were about 250 men at the tables, among the number being some of national renown. The occasion was regarded as of special importance because it brought out the first explanation by Mr. Aldrich of the plans of an organization which has been formed for the avowed purpose of reforming the financial system of the United States.

To those of his hearers who expected Senator Aldrich to use the occasion for the promulgation of the central bank project, or other plan or theory of national finance, his speech must have been in the nature of a surprise. He declared at the outset "that the question of a definite plan for reforming existing conditions has not yet been taken up by the commission." And he added that such a plan would be adopted "until after an opportunity has been afforded for the most careful and exhaustive study of all the conditions that surround the problem."

He declared that he had accepted the present opportunity to make an earnest appeal to you, as the representative men of an important section of the country, to give to the commission the advantage of your valuable counsel and co-operation in securing the adoption of a satisfactory monetary plan, and that will surely conserve and promote the vital interests of all the people of this nation."

PURSUING MR. LOEB
New York Interests, Led by Sugar Trust, Said to Be Instigating Congressional Inquiry

WASHINGTON, Nov. 6.—A Congressional inquiry into the New York custom house is the programme arranged by a powerful group of New York importers. The Star will say tomorrow: "They make no bones of their purpose to get the official scalp of William Loeb, collector of the port of the Metropolitan."

According to the plans which have been rumored about the White House and treasury, the New York delegation in Congress will ask for a special committee to probe into the affairs of Mr. Loeb's office, within a day or so after the meeting of the national legislature.

The greater portion of the numbers representing the Empire State, it is known, are not particularly favorable to the collector, and will use the recent frauds in the programme arranged by the collector's conduct of the cases against the malefactors, as their occasion in asking for the inquiry.

Foremost among the influences against Mr. Loeb, according to the information at hand, is the "Sugar Trust," which is under the charge of having cheated the government out of several millions by short weights in collusion with bribed customs inspectors.

Another Football Victim
UTICA, N. Y., Nov. 6.—Joseph Pickering, 17 years old, member of the Casanova senior football eleven, sustained what are believed to be mortal injuries in a game with the Colgate academy eleven at Hamilton this afternoon. Although the young man's limbs and trunk were immediately stricken with paralysis, the seriousness of his condition was not realized until tonight, following his removal to a hospital in this city.

War in the Air
PHILADELPHIA, Nov. 6.—"The next war will be decided in the air," said M. Herring, who took a prominent part in the aviation contests last summer in France, tonight in an address before the Engineers' club of this city. No body of men, he declared, within range of a dirigible war balloon could possibly help being wiped out. Some of the German war dirigibles have carried three rapid fire gatling guns, said Mr. Herring, and have been able to keep up a continuous fire for two hours.

AT LAST A POSITIVE CURE HAS BEEN FOUND FOR

Asthma!

In the now famous

INDIAN HERB CURE

Manufactured and put up in Victoria, B. C., by

J. F. Fitzpatrick, 1010 Yates St., Victoria, B.C.

The following testimonial is only one of the many which have been willingly offered in verification of the wonderful cure which has been achieved by the use of this preparation in a very short time. Other testimonials of well-known citizens may also be seen on calling at 1010 Yates street. Many who are now using the preparation for a short time only are so thoroughly convinced of its beneficial effects that they feel they cannot say too much in praise of the wonderful results of this simple and harmless remedy.

What is the use of losing both time and money with all those questionable foreign productions called "Asthma Cure," when you may be convinced in a very few days' use of THE INDIAN HERB CURE, that you are on the way to permanent cure.

To those afflicted, or having friends afflicted, with this stubborn and heretofore incurable disease, will do well to call at above address and be convinced.

Victoria, B. C., Oct. 28th, 1909.
"Mr. Fitzpatrick—I am writing this to let you know what a great relief I have found in your Asthma Cure. I have suffered with asthma for ten years, and have tried so many different remedies and have found nothing that has given me such great relief as your Asthma Cure, and by continually taking it I think I will find it a cure."
Mrs. MAY WITTY, 1123 North Park Street.

GOOD PROGRESS IN PUBLICITY WORK

Campaign of Vancouver Island Development League During Past Six Months

This week the Vancouver Island Development League will have been in existence for six months, and that the work which it is carrying out is of high importance to the city and island. Evidence of the progress of the organization since its inception. It is safe to state that the league has not yet reached the height of its usefulness, as it is always extending its scope. The amount of interest being taken in Vancouver Island is growing in volume every week.

The league started active work on April 15th, but was confronted at the outset with a certain amount of work left over by the defunct Tourist association. The new organization had to wind up the affairs of the association, and find new quarters. This took about three weeks, so that it was not in May before active work in the new publicity campaign was started.

Twenty-one Branches.

During the six months of its life-time the league has been extending through the island, and now comprises twenty-one branches. Every branch except Quatsino, Holberg, Port Renfrew, and Edst Wellington, have been visited by Secretary McGaffey, and the resources of the various districts which comprise the auxiliary branches have been investigated, the territories having been covered in extenso. The logging camps have been visited, the coal mines explored, the copper mines examined, the fishery industries investigated. The timber areas in various districts have been gone over by experts, the farming, fruit growing, and poultry industries have also been visited. The horticultural possibilities were investigated, and in general a thorough canvas was made, with a view to obtaining as good a knowledge as possible of the island's natural resources.

In addition to the above investigations, information dealing with the water power opportunities, dairying and cannery industries, the hunting and fishing prospects have been gone into, the object of the extensive information gathered being to enable the league to furnish visitors and inquirers with all possible information.

System of Advertising.

A system of advertising has been inaugurated, and inquiries received through this medium are bringing in from thirty to forty letters a day. Two-thirds of the inquirers are men who have money, and are seeking investments in places where they can carry on farming and poultry raising, dairying, and fruit growing in a mild climate. A large proportion of the balance of these letters come from men seeking opportunities of starting in business in a small way in some of the new towns, and in localities where railroads are being projected. A few of the letters are from men and women seeking situations.

The handling of the advertising, the answering of inquiries, and the forwarding of literature occupies a considerable portion of the day's work in the local offices. Within the last two and a half months there has been a steady influx of people to the offices, drawn there by reason of the advertising, and seeking information about particular districts on the island, and on adjacent small islands. Practically the island resources. Large cuts of bark in mixed farming, poultry raising, or fruit growing. The number of people who have actually bought land and settled down on the island through the instrumentality of the league is impossible to compute, but there are numerous instances of men with their families having settled on the land through this means.

Exhibit at Seattle.

In addition to this means of publicity, the railroads and steamship offices are kept supplied with literature. A large amount of leaflets and pamphlets were distributed at the A. Y. P. Exposition from the Canadian building there. This distribution included 35,000 copies of the literature, the work was in the hands of a thoroughly

ANY KIND OF SKIN TROUBLE

Quickly Yields to D. D. D. Prescription

Oil of wintergreen is recognized by the medical fraternity as one of the best of all remedies for skin diseases. But it has been found most effective when combined with thymol, glycerine, etc., as in D. D. D. Prescription. The following letter, written on July 12 last by Mrs. R. E. Purdy, of Condie, Sask., gives an idea of the variety of the uses of D. D. D. in the household.

"Last winter I sent for one of your free samples of D. D. D. Prescription. I tried it on sores that broke out on a teething baby's head, on cold-sores, and on a mild type of eczema, and found it worked well, curing each trouble quickly and easily."

"This summer we have used it on bad mosquito bites and it heals them in two or three applications."

"D. D. D. is a wonderfully soothing, cooling liquid, which instantly allays the itching caused by skin diseases, and cures them."

For free sample bottle of D. D. D. Prescription write to the D. D. D. Laboratory, Department V. C., 23 Jordan St., Toronto.

On and after Dec. 1st, 1909, the ten cent parcel delivery will be discontinued by

The Victoria Transfer Co.

competent representative of the league a native of Victoria, and thoroughly acquainted with the island. At the exposition also was a comprehensive and excellent mineral display of the ores of Vancouver Island in two glass cases. At the close of the A. Y. P., this collection as it stood was removed to Ottawa, to become part of the permanent museum there, duly credited to the Vancouver Island League. At the A. Y. P. there was also a space of 10 feet by 16 feet secured in the agricultural building of the C. P. R., where exhibits, collected both by the league and the E. and N. railway, were placed. The exhibit consisted of examples of the island's resources. Logs of timber, fir, cedar, and spruce, were there; coal from the different island mines; copper ore from Koksilah and the King Solomon group; and the Tye Copper company and Alberni; gold ore from Alberni and from the Edith mine, near Clayoquot; iron ore from the Bugaboo district; quicksilver from Uchucklesit; cedar shingles from Ladysmith; a handsome display of marble from Nootka Sound; a display of game birds of the island, painted on polished panels of native fir (this was generally acknowledged to be one of the most beautiful displays in the Exposition); enlarged photos illustrating farming, dairying, timber and orchard scenes; and the birds, animals, and fishes of the island, symbolized respectively by a stuffed white swan from Uclulet, a mounted elk head, and the gelatine cast of a 75-pound salmon. All these exhibits were carefully labeled, so that the display told its own story.

Although occupying such a small space, this exhibit attracted considerable attention, on account of the size of the articles. At the close of the fair, all the timber, coal, and minerals, excepting those from Alberni, were turned over to the curator of the Washington state museum, which is connected with the Washington University. There they have become a permanent exhibit, as well as a portion of the material to be used by the classes of the state university in their studies concerning such materials.

Work in Britain.

A very active campaign of publicity has been carried on in conjunction with J. H. Turner, the Agent-General for British Columbia in London. A large amount of advertising matter has been sent to England, and has been distributed through the agency of Mr. Turner, a work upon which he is still engaged. Distribution has also been carried on in England, Canada, and the United States through the medium of libraries in the different countries. Considerable publicity has also been obtained by articles published in industrial magazines. Articles emanating from the offices of the league have also been published in hunting and fishing publications, while a number of articles have been contributed to the daily papers of this city. The sporting reviews and auto magazines have also been kept supplied. A large number of articles on Victoria and Vancouver Island are now in the press, having been accepted to be published at a future date. Nearly all these articles which have appeared up to the present have been well illustrated.

The publication of a guide to Victoria has been completed for the use of inquirers either personally or by mail. The new book, with illustrations, is a condensed description of the resources of the island, and is intended for the use of prospective settlers and investors. A thoroughly digested and condensed description of the entire district in which branches of the league exist, including practically every settled portion of the island, no matter how meagrely inhabited, is being prepared for publication. A great deal of time has been spent on this work, with a view of making it literally an encyclopedia of the island from every possible standpoint. The provincial government is to print this work, the Victoria branch of the league paying for the numerous illustrations. It is confidently asserted that it will be the best and most useful work of its kind ever published. The government has reserved the right to tabulate and verify all positive statements of fact contained in the work.

Personal Letters.

Thousands of personal letters have been written to inquirers seeking special information. Hundreds of letters have been addressed to the secretaries of the different branches, and scores of interviews have taken place with the residents and secretaries in the various districts, relative to the publication of literature and the mean or work throughout the island. A great many meetings have been held and a feature of the organization is the unanimity which prevails throughout the branches.

As an organization the league has steered clear of politics and religion, and endeavored in every way to forward impartially the respective interests of all the districts. The Victoria members did good serviceable work in helping through the passage of the B. C. Electric Power by-law. The league has also been intensely active on questions of railway development, and on the question of land clearing on a large scale for the benefit of present and prospective settlers.

A great deal of literature and a large number of photos have been turned over to visiting officials from London and other parts of Great Britain to be used in the interests of the island. Interviews have also taken place between the league officials and industrial chiefs who have visited Victoria. Lantern slides have been colored and sent abroad for the purpose of publicity through lectures. During the A. Y. P., a complete set of slides illustrating of Vancouver Island were shown nightly.

Through the efforts of the league officials the British Columbia government was induced to make an appropriation of \$30,000 for the opening up of new trails on the island. A great deal of the time of the local office is taken up with carrying out the matters dealt with above. Weekly the different secretaries throughout the island receive a list of the names of inquirers from the Victoria office, thus giving them opportunities of getting in touch with intending settlers. From every aspect, the league is in excellent shape, and is doing good work, and the officials are thoroughly imbued with a feeling of optimism and belief in their efforts being crowned with results of the most substantial and desirable character.

HEAR ADDRESSES ON THE ISSUES

(Continued from Page 1.)

outcome resulting in a sweeping victory in both Victoria and Vancouver for the Conservative party is over confidence," said the speaker. He went on to deal with the confidence with which the Vancouver Conservatives had hailed the announcement of the election. In the Liberal ticket was announced, but little active work had been done by his association, but the moment the opposition announced their candidates the action of the Conservative party flamed into life, and they were now ready to return five supporters of the McBride government, as he was certain that Victoria would return four.

Mr. Plunkett here uttered a solemn word of warning to the workers. They could not take too much care to impress on the rank and file of the party that they should not be foolish enough to split a ticket. He illustrated where this had been done with disastrous results. The party should stand united, and vote the straight Conservative ticket. The McBride government was certain of being returned, and what was the use of voting for a man who would be in the opposition.

Only Two Issues

In the present campaign there were only two issues. One was the record of the present government in the past, and the other the railway policy in the future. Of the former there could be no question. The people believed in Premier McBride, and would support him. Talking of the railway policy Mr. Plunkett said that the wealth of any country does not become wealthy until it is brought into the market. It was by transportation alone that this could be done. The Canadian Northern by building through the province would open up vast timber areas, wealthy coal lands, fruit growing tracts, and agricultural areas, the wealth of which was well nigh inexhaustible. British Columbians were the shareholders in these lands. Their lands were being held for them under an honest government, headed by Premier McBride.

Did the Canadian Northern only build a single main line through the province this was going to open up a tremendous district. But feeders must follow. Traffic was the life and blood of a railway, therefore the main line was only the first part of this development. The Liberals in the province were purposely only seeing the reverse side of the picture. In the policy of the premier they only wished to read "the ruin." Men who failed to believe in the development of their country were traitors and were no more fit to govern this province than the Indians.

The value of the Victoria and Barkley Sound railroad to Victoria had been ably dealt with by Mr. Matson, where the ferry service would connect with the mainland, was within comparatively easy reach of the city. Victoria would be practically the terminus of the railroad, and the benefits which must accrue to this city would be immense.

Necessity for Work. R. W. Perry dealt with the necessity for hard work and in this regard drew inspiration from the number of young men who attended the meetings of the association. The Conservatives in the city had every reason to be optimistic, but they must not be over-confident. They must keep looking ahead. They must not turn back to see how their opponents were getting on, for by doing so ground was lost.

British Columbia today, said the speaker, had a surplus, while Ontario with her millions of people had none. On this ground, even on the grounds of general principles, the McBride government was worthy of the support of the people. In his opinion the railway policy enunciated by the premier was the best he had ever heard.

Continuing the speaker again alluded to the necessity for a strong organization and energetic work. Premier McBride had staked his political life on the railway policy, and on the coming election, and the people of the province he felt confidently assured were going to support him, and ensure his return to power by a sweeping majority. In Victoria the Conservatives had four good men, and he would urge every Conservative in the city to vote solid for them.

The Government's Record. H. B. Thomson, one of the Conservative candidates in the city, told how the premier relied on the people of Victoria. He would be back from his campaign tour in the province for the last ten days before the election. Had the premier gone to the country on the record of his past work he would have swept the province. Dealing with this record Mr. Thomson pointed out how under the McBride administration the province was run down to a position of financial bankruptcy to a position of high credit in the money markets of the world.

Alluding to the railway policy, he said that the best guarantee which the province had were the facts that the Canadian Northern was a business corporation, the corporation was ready to go to the limit to get the line, and Mann were the shrewdest railroad

(Continued on Page 3.)

The Best Equipped Men's Store in Victoria

GIFTS FOR LADIES!

Are a specialty with us. High class, exclusive goods, such as a husband, who is a choice dresser himself, would purchase as a present for his wife or daughter. Here are four suggestions:

GOLFERS FOR LADIES

FATHER 80-MOTHER 76

The aged father and mother of a prominent Boston lawyer safely carried through the last two winters by

Vinol

The son says: "My father and mother owe their present strength and good health to Vinol. During the last two trying winters neither of them had a cold, and were able to walk farther and do more than for years. I think Vinol is perfectly wonderful. It certainly is the greatest blood-making, strengthening tonic for old people I ever heard of."

We want every feeble old person in this town to try Vinol. We will return their money without question if it does not accomplish all we claim for it.

D. E. CAMPBELL, Druggist, - Victoria, B.C.

SUITS

We do not hesitate to say that we have on display a most superior stock of suits, the latest in fashion, the best in workmanship and the most moderate in price—

\$15, \$17.50, \$20, \$25 AND UP

Dinner and Evening Gowns

Our new showings in evening and dinner gowns are really most charming. Included in our display are gowns of remarkable beauty and distinct value. Of course we have the very high priced ones, but it must be remembered that evening gowns of the very latest styles, trimmings and material are procurable at very moderate figures as the following will show:—

Evening Dresses, \$15, \$18, \$21, \$25 and Up

Dinner Dresses, \$12.75, \$16.50, \$20, \$25 and Up

Our sales in this department are very large, due to the attractiveness of our garments and the extremely reasonable prices. All models are exclusive. In many of the new gowns the garniture is the most important feature. Jet and metal embroideries are used chiefly on a net foundation. Princess gowns are very popular. Ornamentations are particularly noteworthy.

Campbell
"THE FASHION CENTRE"

COATS

For smart appearance, gracefulness and general utility our showing in coats has reached the acme of perfection. Satisfying coats are very popular. Air of distinction is evidenced here—

\$7.50, \$9.75, \$12.75, \$15 AND UP

Restaurant & Opera Cloaks

In this department, as in others, we seem to be broadening our reputation for offering exclusive garments. Restaurant and evening cloaks are a most becoming necessity to the lady of refined taste, they always are so much appreciated at the ball, dinner, theatre or reception.

The Range of Prices are:—

\$21, \$25, \$27.50, \$30 and Up

These cloaks are in various shades, beautifully lined, and the trimmings are particularly pleasing.

We hope you will not miss the opportunity of inspecting our stock first. We have spared neither trouble nor expense in purchasing our new goods. We must please you—we can. We endeavor to give you the best values obtainable, at the same time studying economy with quality.

This store is a store of exceptional values, no matter where you go.

HEAR ADDRESSES ON THE ISSUES

(Continued from Page 2.)

men in Canada, they had pledged the credit of their entire system, a system which was estimated to be worth \$150,000,000, as a guarantee of their good faith.

He believed that when the Canadian Northern was running through to the coast that the surplus grain of the northwest would find an outlet to the markets of the world by the Victoria and Barkley Sound railroad. Viscerous scoffed at the idea of a ferry service being a business proposition, but let them study this system in Europe. There were numbers of ferry services on the Baltic, many of them carrying whole trains, and there they were regarded as eminently commercial undertakings. From Barkley Sound the grain of the northwest could be shipped out to the world's ports without pilorage or insurance charges, and the trains running to the northwest could carry back lumber cargoes. At Barkley Sound there was a wonderful timber supply to draw from. He believed that there was no finer belt of timber in the province.

Other Cases.

Mr. Thomson went on to refer to the Manitoba government having guaranteed the Canadian Northern bonds to the extent of \$17,000,000 when the revenue of that province was only \$700,000. British Columbia with a revenue of \$3,000,000 was asked to guarantee bonds to the extent of \$21,000,000. The assets created in the province would be tremendous, far in excess of the \$21,000,000, the bonds for which the government was asked to guarantee. The construction of the Grand Trunk Pacific in the north of the province had increased the assets of B. C. to a wonderful degree. This was illustrated by the recent sale of Prince Rupert townsite lots when the government owned property there had realized a sum of \$800,000. The value of lands in the Bulkley and Nechako valleys had largely increased, and from their increase might be drawn the lesson of what the construction of the Canadian Northern must mean to this province.

P. Davey in a brief speech alluded to the danger of over-confidence. The voters lists this time contained over 8,000 names whereas at the last provincial election they had contained by 4,500. There was an unknown quantity of over 3,000 names. In the present campaign the Liberals were resorting to disreputable methods. An attempt was being made to interrupt Premier McBride's election tour to bring him back to Vancouver to attend as a witness at a libel suit. He believed that if this attempt was successful it would create a wave of sympathy for the premier throughout the province and would redound to his credit at the polls.

The arraignment by John Oliver of the government railway policy was then dealt with by Mr. Davey. This might be placed under three heads. Because certain criminals had escaped in wild and almost inaccessible parts of the province, it was said that the premier should be turned out of office. No one had ever heard of the British government being arraigned along similar lines because they had allowed "Jack the Ripper" to elude the law. Another matter upon which the government was to be brought to book was because there

was not sufficient cleanliness among Chinese habitations. Well, the speaker understood that this was purely a municipal matter, and that the government was blameless in this respect. Then it was said that previous contracts made with the Canadian Northern had not been carried out, and on this reasoning the present one would fail. But, said the speaker, conditions were very different now to what they were in former days. Then Messrs. Mackenzie and Mann were practically unknown while today they were master minds in railway construction. The province also was in a very different condition, the treasury was overflowing, new sources of revenue were being discovered. Deducting from these facts Mr. Davey said that it was very evident that Mr. Oliver's arraignment was of the very weakest character, and he felt sure that it would be treated with indifference by the people of the province.

Subsequent to Mr. Davey's speech the work of arranging committees and appointing chairmen in wards one and two was undertaken.

ARRANGEMENTS FOR CRIMEA DINNER

Affair Promises to be Largely Attended—Veterans to be Guests

Final arrangements have been completed for the dinner to be given at the Driford hotel on Tuesday night by the British Campaigner's Association in celebration of the Indian mutiny. The attendance promises to exceed that of last year when 137 guests sat at the banquet board.

Five veterans of the Indian Mutiny have been invited to attend and have signified their intention of being present. Capt. Olive Phillips Wolley will deliver the address of the evening, and the Bishop of Columbia and Mayor Hall will speak. The toasts on the list include those of "The King," "The Army, Navy and Auxiliary Forces," "The Guests," and others, and it is likely that there will be a flow of reminiscences from the veterans of many wars. The guests of honor will include the following veterans who took part in that historic struggle which saved the British Empire: Major W. Wilson, 42nd Highlanders (Black Watch).

Brinkley Robinson, H.M. 12th Foot. G. Millett, 5th Northumberland Fusiliers. R. Forster, 20th Hussars. P. C. Fernie, Royal Horse Artillery. Rev. J. S. Bailey, a Crimean veteran and others.

Anyone knowing the whereabouts of other veterans of the Mutiny are requested to notify the secretary of the association, Lieutenant P. T. Stern. The orchestra of the Fifth Regiment band will play during the evening, and Messrs. Phillips, Evans, Fahey, Griffiths and Beaven will render vocal selections. A Berwick, will be accompanist. The officers of the garrison, navy and local militia will attend and a contingent of retired service men from Duncan's is expected. The dinner will commence at 8.30 and not at 8 p.m. as stated on the tickets.

Chrysanthemum Show

The chrysanthemum show in aid of the Orphanage, which is now regarded as an annual event, will take place in the Carnegie library building on the 16th and 17th of this month.

News of the World in Brief

PROVINCIAL

Liberal Nomination
NEW WESTMINSTER, Nov. 6.—Ald. J. J. Johnston was nominated by the Liberal convention here last evening to oppose Thos. Gifford for the local house.

Ore Production
NELSON, Nov. 6.—Following are the ore shipments and smelter receipts by districts for the past week, and the year to date: Boundary district, 45,489 tons for week, and 1,249,439 tons for year. Rossland district, 4,580 tons for week, and 199,153 tons for year. Slocan-Kootenay, 3,431 tons for week, and 161,481 tons for

year. Total shipments for week, 51,480 tons, and for year to date, 1,610,073 tons. Smelter receipts for week 48,625 tons and 1,486,536 tons for year to date.

CANADIAN

Guilty of Manslaughter.
BRANDON, Nov. 6.—James Williams was found guilty of manslaughter in connection with the death of his child at the Brandon assizes but sentence was suspended.

Bank Manager Found Dead.
BRIDGEBURY, N. S., Nov. 6.—Mr. R. Jeffrey, manager of the Sterling Bank at Fort Erie and president of the

board of trade, was found dead in bed yesterday. Heart failure being the cause. He was 35 years old and unmarried.

Mr. Niblock's Ambition
CALGARY, Nov. 6.—John Niblock, late district superintendent of the Canadian Pacific, will in all probability be a candidate for city commissioner at the forthcoming civic election.

Calgary's Street Railway.
CALGARY, Nov. 6.—During four months of operation, Calgary's municipally owned street railway has carried 745,409 passengers, an average of nearly 200,000 a month. The record would have been well over the 800,000 mark if Sunday cars had been run from the time the cars started.

Another Appeal for Money
CALGARY, Nov. 6.—Following the success of the Young Men's Christian Association in the canvass to collect \$50,000 to complete their building, the Young Women's Christian Association at a meeting held last night decided to make a canvass in order to erect a building to carry on their work. The suggestion is being well supported.

Increase in Dominion's Debt.
OTTAWA, Nov. 6.—Increases in revenue and decreases in expenditure with, however, an augmentation of the public debt of Canada, are reported in the monthly financial statement issued by the finance department. The total net debt of the Dominion on October 31 amounted to \$217,727,816; an increase during the month of \$102,235,252.

Alien Labor Law Case.
CHATHAM, Nov. 6.—Information charging the Chatham, Wallaceburg & Lake Erie railroad with violation of the alien labor law has been laid by Thos. Martin, who alleges that "Mr. Shields" was brought to Chatham from Utica, N. Y., to take the place of Assistant-superintendent, under contract previously made. The complainant, who was formerly an employee, was dismissed shortly after Shields took charge. The case will be heard next week.

Sales for Unpaid Taxes.
CALGARY, Nov. 6.—Under the old regime in the Northwest Territories, a certain number of parcels of land were forfeited to the crown for non-payment of taxes. The government of Alberta for the first time will now institute a similar procedure, and in January and February last, action was taken in the courts towards the forfeiting of land on which unpaid taxes have been accumulating. The proceedings are to be completed one year from the time of their commencement in each case. For the Calgary district that means December 15th, 1909. Several hundred parcels of land are involved in the province. In Calgary district they comprise mostly farm lands.

FOREIGN

German Cholera Cases.
BERLIN, Nov. 6.—Official reports of the cholera cases in Germany show that from July 19 until November 3, 33 persons had the disease, and twelve of these died. Most of the cases developed in the vicinity of the Delta of the Vistula river, where the contagion was brought by Russian lumbermen.

France Honors Wrights.
NEW YORK, Nov. 6.—Orville and Wilbur Wright, the aviators, it became known today, have been presented with the Cross of the Legion of Honor by the Republic of France, through its consul-general here, M. Etienne Lamel. The ceremony took place quietly yesterday at the French consulate.

Whole Navy Sunk
NEW YORK, Nov. 6.—The entire navy of Honduras was sunk by collision with a fruit boat, according to passengers arriving yesterday from British Honduras. The Tutumbia, the one man-of-war, sank near Port Cortez. As the accident occurred close to the shore, no lives were lost. The Tutumbia was a transformed tug boat.

Pennsylvania Train Wrecked
NEW YORK, Nov. 6.—The Pennsylvania railroad passenger train which left Philadelphia at 6:30 o'clock this morning was wrecked on the elevated structure in Jersey City near Brunswick street. The engineer was killed, the fireman seriously and another trainman slightly injured. A score of passengers on the train received minor injuries from flying glass.

Consistory Postponed.
ROME, Nov. 6.—The consistory proposed for December has been postponed, and will be held some time during the first two weeks of January. Great secrecy is maintained regarding the cardinals to be created, considerable pressure being brought to bear in favor of having an American elevated. The Vatican authorities are sceptical of the success of this movement.

Grave Rumors Denied.
ENTEBBE, British East Africa, Nov. 6.—There is absolutely no confirmation here of the reports current yesterday in the United States and cables to British East Africa that Theodore Roosevelt had met his death in the protectorate. Mr. Roosevelt is hunting on the Gaus

Ideals are all right, but facts and figures are more satisfactory.

It is a fact that our optical work is giving entire satisfaction to many.

We have no complaints, no dissatisfied patrons. On the other hand scarcely a day passes that we do not receive either a personal call or telephone message from a patron in appreciation of our methods and work.

We have a modern optical plant second to none on the Pacific coast.

We grind our own lenses. Come in and see, on the premises, the finest lens grinding plant ever brought into British Columbia.

Inglishu Plateau. He was in splendid health when he left the railroad October 28 and enquires by telegraph and telephone in this country fail to bring any substantiation of the grave rumors.

Astor Divorce Hushed.

NEW YORK, Nov. 6.—Counsel in the suit which Mrs. John Jacob Astor is reported to have brought against her husband for divorce, indicated that other than the decree of the court, details of the testimony in the suit will never be made known. Friends of Mrs. Astor say that no application for alimony was made and that Col. Astor made a settlement of \$10,000,000 on his wife. It is understood that Mrs. Astor will not receive any of her husband's real estate, and after the decree will make her home abroad.

Declines Society's Offer.

COPENHAGEN, Nov. 6.—The consistory of the University of Copenhagen today declined to accept the proposal of the National Geographic Society that a committee representing the American body be present when the North Pole records of Dr. Cook are first examined. A message was sent to Prof. Wills L. Moore, president of the National Geographic Society at Washington, as follows: "The university cannot accept the offered assistance, taking it for granted that the data and records after our examination will be placed at the disposal of other scientific institutions."

Blue Serge Suits at \$25.00

Guaranteed an Indigo

It is our ambition to turn out the best Serge Suit on the Coast at this price. We think we have it in a 22 ounce worsted that will keep its shape and won't gloss. Made in a two or three button S. B. or D. B. style, with a medium or long roll lapel.

Our tailor will see that it fits you perfectly before it leaves the store.

If you prefer a Special Order we make the same cloth up at \$27.50 and Guarantee a fit.

AMUSEMENTS

Miss Duthie in Recital.

"If you wish to hear the songs which will not die, sung as they were meant to be sung, then move within range of Lena Duthie's voice." Thus writes a press critic, commenting on the delightful recital of the noted lyric soprano, who will appear at the A. O. U. W. Hall on Wednesday evening, November 10th, under the auspices of the St. Andrew's Pipe Band. "Miss Duthie hails from Scotland," the writer continues. "She is known as the Scottish lyric soprano, and under the spell of her Scotch and Irish folk lore and national songs, one is serenely indifferent to the rest of creation, with its worries and cares. Miss Duthie appeared at the Lyric Theatre last night, and with crisp wit and winning presence, captivated her audience even before she sang. Wearing the garb of Old Scotia, she interpreted the appealing tenderness of 'Annie Laurie.' Another gem was 'The Skye Boat Song,' so suggestive of devotion

(Put on by all shoedealers.)

and daring and the lift of waves. Miss Duthie can wear the green as gracefully as the tartan, and in the role of the Irish peasant girl, she sang her way to the hearts of all who were privileged to be present."

Miss Duthie will be supported by Mrs. Butler, soloist, Mr. William Brown, and a company of Highland pipers and dancers.

TEMPLE BUILDING VICTORIA

NEWS OF THE CITY

St. George's Ball.

The St. George's masquerade ball will take place in the A. O. U. W. hall on the evening of the King's birthday, Tuesday next. This will be the nineteenth annual affair of the local organization.

Meetings in Island Constituency.

A. E. McPhillips, K. C., candidate in the Conservative interest for the Islands constituency, will address a meeting on Tuesday evening at Sidney. Meetings will be held on November 12 at the Central Settlement, San. Springs Island; November 15th, at Mayne Island; and November 18th, at North Pender Island.

Men's Club Dinner.

The men's club of the Metropolitan Methodist church, will hold a dinner in the schoolroom tomorrow evening, at 6:30 o'clock. A discussion of civic politics and the policies of the club generally will take place, and selections by the choir will be given. All members of the church are invited, irrespective of the invitations issued.

Wong Must Explain

Wong Yue, a Celestial, who is alleged, showed his animus against a fellow Chinaman, Chan Wong, by assaulting the latter on October 14, and afterwards making himself scarce, was arrested last evening by Detective McDonald on Government street. Wong, evidently under the impression that his attack on Chan had been forgotten, returned to the city a day or two ago. He will have an opportunity of explaining his trouble with Chan to Magistrate Jay tomorrow morning.

Clinker Brick in Demand

Clinker brick, that is brick which in the burning develops strange shapes and weird proportions, has become quite a favorite material with local builders who use it chiefly for the construction of fireplaces though some buildings are now being erected in which the brick has been extensively used. Heretofore this material has been discarded by the local brick manufacturers owing to there being no demand for it. The brick manufacturers here have evidently now secured a market for what they have to date been regarding as waste material.

Police Ball.

The local police force annual jollification, which will this year take the form of a ball, will take place on December 10th. The dance will be held in the women's building at the fair grounds, and the proceeds will be devoted to a police hospital fund. Some years ago such fund was raised, and some \$600 paid to the Jubilee hospital in return for which members of the force at that time were entitled to six weeks' treatment in case of illness. It is the intention to adopt some similar scheme now, and the ball is expected to produce a good surplus. The following committee has been appointed: Honorary president, George Jay; president, Chief J. M. Langley; vice-president, Capt. Palmer; secretary, Inspector Handley; treasurer, Lieut. Walker. Tickets, which will be \$3 for a double ticket, and \$1 for additional ladies' tickets, will be on sale in a few days. The merchants, and in fact, all Victorians, are expected to generously support the scheme, as this is the first time that the stalwarts have held an annual affair of this nature.

Oratory Contest.

The literary department of the Y. M. C. A. has arranged to hold a mock city council. Preliminary to this it has been decided to hold an oratory contest, on December 1st, the subject chosen being "The Future of Victoria." The rules in connection with this contest will be 20-minute speeches, and no man professionally engaged as a speaker can compete. The prize cannot be won two years in succession; fifty per cent will be allowed for matter, and 50 per cent for style in the oration. The following entries have already been received: J. L. Martin, E. L. Harrison, George Brown, and E. S. Woodward. D. W. Higgins is taking a keen interest in the proceedings of the literary department, as is Capt. D. Mackintosh, the chairman of the literary committee. At the conclusion of the oratory contest, gold and silver medals will be awarded to the first and second prizemen, and following this, arrangements will be made for the election of a mayor and alderman to constitute the mock city council which is projected. A feature of the discussions of this body will be the water question.

Clarke & Pearson, tinsmiths and stove dealers, removed to 1313 Wharf St., near Johnson.

Another Reflection of Victoria's Growing Time

THE PEMBERTON BLOCK IN COURSE OF ERECTION.

Steadily pushing its way upward, the Pemberton building on the corner of Fort and Broad streets is beginning to convey an idea of what it will look when completed. It will consist of six stories, and already the frame work of concrete for five of these with

the separating floors has been run up, though the boarding which surrounds the drying concrete still remains in place.

The new building is only one sign of the transmutation which is going on throughout Victoria. The change

which the merchants of Victoria have experienced in their businesses is being reflected in the buildings which house them.

With the new structures projected for Government, Fort and Yates streets, the "down town" section will present a very different appearance.

WOMEN'S COUNCIL ANNUAL MEETING

Will Be in Session Tomorrow and Tuesday—To Transact Business

The fifteenth annual meeting of the Local Council of Women will take place tomorrow and Tuesday in the Council chamber of the City Hall. A reception in honor of the Provincial Vice-President, President, Members of the Executive and Delegates from Affiliated Societies will be held at Government House on Monday evening, November 8th.

The following is the programme:
Monday Morning
10 a.m.: After routine business the following will be considered.
Resolution I.—Proposed by the King's Daughters, Metchisin: Whereas, the excessive speeding and inconsiderate handling of motors on coun-

try roads make such roads unsafe for women driving, resolved, that the proper authorities be appealed to for strict enforcement of existing laws and for better regulations concerning rate of speed. Moved by Mrs. Fisher; seconded by Mrs. Field.

Resolution II.—Proposed by the King's Daughters, Metchisin: Whereas, the legal status of women in British Columbia is unsatisfactory; resolved, that the Local Council of Women look into the matter with a view of presenting a petition to this legislative body asking for reform in certain directions. Moved by Mrs. Reid; seconded by Mrs. Helgesen. Adjournment.

Afternoon Session

2 p.m.: Report of annual meeting of National Council of Women of Canada by the Provincial Vice-President. Discussion on the report. Address by Charles H. Lugin, Esq.: "An Outpost of the Empire."
Resolution III.—Proposed by the Home Nursing Society: Whereas, the committee of the Home Nursing Society, through the interest of its work is frequently impressed with the urgent need of the establishment of a Juvenile Court and Detention Home for Delinquent Children; resolved, that the Local Council of Women be respectfully petitioned to use their earnest endeavor to secure the establishment of the same in the city of Victoria at an early date. Moved by Mrs. Toller; seconded by Mrs. Perrin.

Tuesday

10 a.m.: Resolution IV.—Proposed by the Ladies of the Maccabees: Whereas, there is no prescribed regulation for ventilating factories, shops and office buildings, except bakeries, and whereas, no inspector has been appointed in accordance with the provisions of the Act for the enforcement of the same; resolved, that the Local Council of Women do petition the provincial government to so order that shops, factories and office buildings be properly ventilated and an inspector be appointed to enforce the provisions of the Act. Moved by Mrs. Dickson; seconded by Mrs. Wall.
Resolution V.—Proposed by the W. C. T. U.: Whereas, at the present time there is no place in this province to which young girls under conviction of the courts can be sent, except to the common jail; resolved, that we ask the provincial government to establish an Industrial School for delinquent girls at as early a date as possible. Moved by Mrs. Gordon Grant; seconded by Mrs. Reid.

Resolution VI.—Proposed by the W. C. T. U.: Resolved, that we deeply de-

plore the fact that the property of the city of Victoria has been leased under conditions which allow betting to be carried on by professional book-makers, and that we enter a hearty protest against its being permitted for the future. Moved by Mrs. Andrews; seconded by Mrs. W. Grant.

Resolution VII.—Proposed by the Victoria Literary Society: Whereas, great inconvenience has been experienced, and in not a few cases injury sustained, from the high steps of the new B. C. Electric cars; be it resolved, that the B. C. Electric Company be approached with a view to the lowering of the said steps. Moved by Mrs. Gordon; seconded by Mrs. Dickinson.

Afternoon Session

2 p.m.: Account of the quinquennial meeting of the International Council, by Mrs. Day, Provincial Vice-President.
Report of Immigration committee, by Miss Crease.
Paper on "The Present Training of Future Citizens," by Mrs. Rocke Robertson.
Paper on "Civic Government," by F. Andrews, Esq.
New business.
Resolutions of thanks.
Reading of final minutes.
Adjournment.

Do not forget the Six Days' Blouse Sale at the Beehive Cash Store; this occurs just at the right time when you are thinking of the new blouse you ought to buy for Fall; it is a chance to get a good English Blouse reasonable.

We Will Have A Man

Gerhard Heintzman Ltd Pianos

A PIANO FOR AN XMAS GIFT

The advent of the Gerhard Heintzman Piano in the home would make the occasion memorable as no other gift could. It would bring unalloyed gladness to many people for many Merry Christmas, because the

GERHARD HEINTZMAN "Canada's Premier Piano"

Is built to last for generations. It is the one piano for British Columbia, especially made to withstand great changes of climate. Its incomparable beauty of tone makes it absolutely beyond competition with other Canadian pianos.

By our easy payment plan every family in moderate circumstances can own a "Gerhard Heintzman Piano." Come in and we'll talk the matter over.

City Engineer.

Here and There

On Monday and Tuesday the local Council of Women will hold its annual meeting in the City Hall, and this annual meeting will be the fifteenth. For fifteen years, without a single break, the council has held its own in this city, while some of its members have been with it from the beginning. Whatever else may be said of the council it is at any rate a vigorous body, showing its vitality by its growth. It is the largest local council but one in the whole Dominion. No doubt when it began many people looked upon it as merely a passing fashion, others felt that it was useless or worse, that women should be "keepers at home," and there are those who think so still. But in these days women cannot be kept behind the "purdah," the movement and progress which we see around us cannot be confined to men; women want to have their share in the life of the city. They read the newspapers, and they become eager to take their part in what is recorded there, and while some long to participate in the bridge party or the golf tournament, the majority of them wish to lend a willing hand to forward the philanthropic and educational work of their city. The local Council of Women is a means whereby those who do desire to help forward philanthropy and the improvement of the conditions of life, the real welfare of their country, can join together with this one common object. It is this which makes the real strength, the true bond, in the council. Its best members are those whose hearts are stirred by the desire to fight against evil and to make the conditions of life healthful for others besides themselves. In the programme for the meetings of Monday and Tuesday will be found much that is of real educational value. Mr. Lugin's address on "An Outpost of the Empire" should be of great interest to those who love this Western Island, while Mrs. Rocke Robertson's paper on "The Present Training of Future Citizens" will appeal to the lovers of home and children. The meetings are public, and open to all who are interested in them.

The world, and it is to be feared, especially the world of women, is always ready to criticise the girl who earns her living in the city. Their sneers in the stores or offices and their conduct in the cars, or places of amusement, are sharply watched, and often unkindly commented upon. Let "Central" answer sharply, or the girl who sells ribbons display the slightest indifference to our wants: which of us is not ready with a scolding, and always expressed. The loud laugh, or the defiant jest on some foolish child is noticed quickly enough. But are older women as quick as they should be to observe the tired eyes, the weary drop of the shoulders of the workwomen, as in the semi-darkness of a wet evening they sit, as they think, unobserved, in the crowded car?

There are those who could tell us that some of these shoulders bear heavy burdens very bravely. The sick mother, the helpless little ones, the overburdened father are each very often helped by one of the girls whose bright faces and trim figures we admire as we meet them going to work in the morning. It is seldom that the girl's earnings, however small, are all spent upon herself. She goes to work to help at home, and help she does until someone carries her off to a home of her own.

She loves her independence, and does not complain of her sacrifices; but she is entitled to the sympathy and the help of older women. She loves pleasure, for she is young. She may be too fond of admiration; but what woman was ever too old to long for praise?

Most of the girls who are at work in Victoria live at home, and from those they help, from mothers and sisters and fathers they should receive and, no doubt, usually get, love and help and the sympathy which is a woman's life.

But there are others who, drawn by the higher wages paid in this Western city, leave their families that they may be able to help them better. Some of these, too, find kind homes and loving friends. But it is not always so. Many are lonely and homesick, longing as they can do to remain at the tasks which enable them to send home the money so greatly needed there. There are plenty of kind, motherly women in Victoria who could help to cheer these lonely girls, if they but saw their need. This is not always easy, for women very soon learn not to wear their hearts on their sleeves. Those who need our sympathy most are very often the last to claim it.

But, perhaps, if we all kept a keener look out at the church, about our business, and in our neighborhood, there would be few, even of the most reserved, whom we could not draw into our home circles and make them at least a little happier. This is no work so much for organizations as for individuals, and it can only be done by those whose kindness is genuine and spontaneous.

The case is different with the little girls of whom the writer of the editorial in the women's edition spoke so forcibly. They need not only sympathy, but care and guidance. It is hard to see how those who have mothers can be reached. It is the mothers who need reforming most, and it should not be beyond the wisdom of the motherhood of Victoria to form some plan by which they could be brought to a sense of their criminal negligence. If any of these little

HOLBROOK'S

and piquancy to
SOUPS, FISH, MEATS, SAUCE,
POULTRY, GAME.
MADE AND BOTTLED IN ENGLAND—SOLD BY ALL GROCERS

girls are motherless, the Children's Aid orphanage should take care of them. There is a proposal before the Women's Council that an industrial school shall be opened for girls who have been convicted of crime. But this does not meet this case. These foolish little girls must be taken out of harm's way. Is there not a provision in the law which established the Children's Aid society which meets this need? If some wise, kind woman were placed in charge of a detention home, and if little girls knew that she had authority to take charge of them, when they were on the streets after dark alone, unless they could show that they had a right to be out, there would be less of the dangerous loitering of which such frequent complaint is made. This matter is one that should be dealt with at once, and dealt with wisely.

We are apt to forget that Hal-lowe'en is past, and that Christmas will soon be here. On this 6th of November men and women, too, are everywhere busy in their gardens. The air is so mild that the most delicate woman can, if she loves the color of the crocuses, the daffodils and hyacinths, which will gladden our eyes in the spring. The chrysanthemums are still blooming in the open, and violets are beginning to scent the borders. The laurustinus is covered with its pretty pinkish white bloom, and late roses linger here and there. It is hard to realize that in the old homes of those of us who are Canadians the ground is already covered with snow or hard with frost and that the keen winds make out door employment impossible.

If the women who have undertaken so enthusiastically to teach gardening to girls in England are right in their belief that the girl who is one in which women can excel, there is nowhere in Canada and perhaps few places in the world in which they would be so likely to succeed as in the neighborhood of Victoria. There are not more than two months in the year, if there is as long a time, when the gardener cannot work without hardship. It is well worth the while of our own girls to consider whether the cultivation of flowers, and the raising of fruit and vegetables would profitable employment than many in which women now engaged.

Good work is never noisily done. We hear so much of women's rights and wrongs in these days that we forget that there are thousands of women who are doing very wonderful things, who are never heard of except through the "Word" they have done. One of these died the other day in the United States. She was a professor of English literature in a leading college, a writer of prose and of beautiful prose. Her name was Miss Sophie Jewett, and we are told "she was teacher, scholar, and poet—a wise counsellor, a master of detail and technique, an interpreter of beautiful literature, and writer of beautiful verse. But this woman was something better. Those who knew her will not find it easy to convey in words their impression of her vivid charm, her illuminating humor, her exquisite taste, her truthfulness, intellectual and moral, and her quick and deep sympathies."

Another woman still living, who has quietly made the most wonderful discovery of the age, lives in Paris. Of her the following description is given:

"Across the English channel, scientific discovery is honored in the person of Mme. Curie of radium celebrity. Her triumph merits brief narration. Mme. Curie won over her husband, Prof. Pierre Curie, originally her tutor, to share her toils, and together they began their inquiry of respecting the final contents of what is known as Bohemian pitchblende residue. Steadfastly they followed the scent, beset with difficulties which had repeatedly baffled other workers, and at length their herculean task was accomplished by the discovery of probably the most extraordinary find ever made in the universe of matter. In appearance, Mme. Curie, of Polish nationality, has a frank, winsome, and expressive countenance of unusual force of character and sterling qualities, and is, as all the world knows, a woman of brilliant endowments, displaying a passion for science. Owing to the tragic death of her husband in the streets of Paris some time ago, Mme. Curie has the distinction of these pathetic conditions of occupying his professional chair in the University of Paris. It may be recalled that in 1903 the Royal Society of Great Britain gave a medal to Professor and Mme. Curie for their joint investigation and codiscovery of radium."

In many observatories all over the world women are studying astronomy. Among these is Mme. Flammarion, the wife of the French astronomer. This lady has made a special study of the planet Mars.

Another woman who has won distinction in an unusual field is Mrs. Ayrton, who is the only woman mem-

ber of the Institution of Electrical Engineers, and who has received a medal for her researches on the electric arc and on sand ripples.

These women and many others have taken up the work for which they found themselves fitted, and for which they had a taste. A recent article in Cassell's Magazine shows that the day has gone by when any employment in which she is fitted to excel is closed to a woman.

WOMAN'S WORK

On Friday the Diocesan board of Women's Auxiliary to the M. S. C. C. held their regular quarterly meeting in St. John's schoolroom, President Mrs. Perrin in the chair.

The treasurer, Mrs. Wollaston, showed the receipts for the past month to be \$47.55. A letter was read from Rev. W. C. White acknowledging the \$50 donated to the new diocese of Hon-nau, China.

The diocesan secretary, Mrs. Hiscok, reported that Christ church girls had sent to Rock Bay hospital articles valued at \$14.40, and the seniors to Alert Bay articles valued at \$8.75. St. John's girls had sent to Alert Bay four garments, and the seniors to Rock Bay articles to the value of \$1.50. She read an appeal from Miss Halson, senior Dorcas secretary, asking for sheets, quilts and boys' clothing for the Hay River mission, and outfits for three children at Vermilion.

The corresponding secretary stated that she had written Dr. Turner re-quests for bookcase, and his reply was read. Mrs. Jones, from Toronto, wrote re Mrs. Hurst's removal to this diocese. Several letters re babies' branches were also read.

(Continued on Page 12.)

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Dovedale, Sask.—"I was a sufferer from female weakness—monthly periods irregular and painful and a bad discharge, backache and wretched headache, and had felt weak ever since the birth of my twins. I tried doctors but got no relief. I began to take Lydia E. Pinkham's Vegetable Compound, and after three weeks I was feeling much better, and now I am well again."—Mrs. BESSIE BILLY, Dovedale, Sask., Canada.

Another Woman Cured. Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a different woman. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold to suffering women."—Mrs. MARY WOOD, R.F.D. 3.

If you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, irregularities, backache, and nervous prostration.

VICTORIA DOWNED J.B.A.A. RUGBYITES

Thirty-four to Five Was the
Score in Yesterday's
Game

The Victorias defeated the J.B.A.A. Rugby team 34 to 5 at the Royal Athletic park yesterday.

The game was a somewhat ragged one but at times developed into something that looked like the real article of football. The Bays were weakened by the loss of their entire three quarter division, neither Thompson, Nason nor

IS YOUR COAT DUSTY?

You Probably Have the White Scab of Dandruff On It.

If your coat or shoulders have a white dust upon it, the chances are that it is from dandruff. The only way to permanently cure dandruff is to remove the cause, which is a germ. Newbros' Herpicide kills the germ. Every toilet table should have such a hair-dressing that contains also the destroyer of the dandruff and hair falling germ. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good" will not do the work of genuine Herpicide. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. Cyrus H. Bowes, Special Agent, 1228 Government street.

ROWAN ARRIVES

Speedy Nanaimo Runner Will be in
Monday's Big Race at Fair
Grounds

Rowan, the Nanaimo runner, arrived in the city yesterday looking fit and ready for his long grind against Stanley on Monday evening at the Horse Show building at the fair grounds. His arrival assures the success of the big sporting fixture and with Baylis, for the five mile, and Broughton who will make the ten mile distance, the race will give the Durable Dane all he wants, and perhaps more, to come in ahead at the finish. Every convenience for the public will be provided at the Horse Show building. A special car service will be given by the B. C. Electric company and the road from the cars to the building will be well lighted. The preliminary event, the mile race between Jockys Daigle and Quay will be called sharp at 8.15 o'clock, and at 8.30 the big twenty mile grind will be started, all racers starting scratch. Stanley must beat Baylis, B. C. champion at the distance, to the five mile post, must also beat out Broughton to the ten mile mark and as a finisher and to demonstrate that his boasts can be made good, he must come in ahead at the 20 mile mark. He expresses his confidence that he can do it. He states he is in good form and while he knows that his competitors are also prepared to make the race of their lives he expresses no doubt as to the outcome.

FOOTBALL RESULTS

VICTORIA WEST DEFEATS A.O.F.

Soccer Games of Yesterday
Interests Many—Results
in Detail

Yesterday at the Oak Bay grounds the Victoria West senior soccer team defeated the A.O.F. eleven by a score of 5 goals to 1. On the previous form of the two teams the match promised to be one of the most keenly contested of the games in the senior division, but anticipations were not realized for after the first ten minutes of play the Victoria Wests had matters pretty much their own way, and playing a rough game were constantly in their opponents' territory. The score at half time stood 3 goals to 1.
The A.O.F. players showed little of the good form they have displayed in previous matches and were clearly out-classed. The Victoria Wests played a good combination game, the backs feeding the forwards in good style. They showed, however, a degree of roughness which detracted from the spectacular features of the game. Stuart of the Foresters in the second half met with injuries which neces-

581 JOHNSON STREET

sitated his absence from the field for ten minutes.

For the Wests the scorers were McKittick (2), Sheritt (2), and Wright (1). Miller scored for the A. O. F. Miller and Hewlett were the best on the losing team. McKittick and Sheritt doing good work for the winners. The grounds were in good condition. The attendance numbered some 150 people. Alex. Lockley was a good referee.

The teams lined-up as follows:

Victoria West Position A. O. F.
Beane Goal Macdonald
Prevost Full back Newland (c)
Kinloch Half back Patch
Bailey Clegh
Cowper Stewart
S. O'Neil (c) Forward Bridgen
Sheritt J. Young
Sedger Pearson
McKittick Malbon
Wright W. Young

Beacon Hill 4, Esquimalt 0.

By a score of 4 to nil the Beacon Hills walked away from the Esquimalt eleven in the second division soccer series at Beacon Hill Park yesterday afternoon. The Hills were altogether

too much for the team from the dock district, and while the latter showed good form in spots, their play was not consistent. The Hills were on the aggressive most of the time, and should have made an even larger score, but their shooting was off color at times and some easy chances were missed. Carginson, Gregg and Connell were the bright particular stars for the victors, while the defence played a steady game and had little difficulty in stopping the Esquimalt rushes. For the latter eleven the forwards played hard but were somewhat light, and the support given by the backs was not what it should have been. Three goals in the first half, one each by

VANCOUVER MILLING & GRAIN CO., Limited

The Ambitious Housewife

Seeks to make every product of
her cooking perfection itself. She
should take advantage of every
condition that will help her.
Royal Standard Flour has
helped thousands of women in
British Columbia to get perfect
results. Its rapidly increasing
use shows this. There is a good
reason why it should. It is made
from the best wheat—from wheat
that is most carefully milled, and
is the result of the most skillful
blending that is possible as a re-
sult of our experiments, carefully
patiently and tirelessly conduct-
ed.

The users of Royal Standard
Flour appreciate the opportunity
they have each month of draw-
ing a 100-piece china dinner set.
The flour is perfection itself, and
the extra premium is in keeping
with our policy of giving super-
ior value.

The coupon in your sack this
month may entitle you to one of
these dinner sets.

lic Questions." Beginning with Sunday,
the 14th, the evening service will begin
at 7 o'clock instead of 7.30 as hereto-

WHEN YOU BUY GLASSES

Do You Buy the Frames or the Lenses?

A great many people buy the former and a great many more
go to unreliable, so-called opticians in drug or jewellery stores and
get fitted by incompetent salesmen.

The result is permanent injury to the eyes, instead of help, which
is practically impossible to correct.

When we examine your eyes we know positively the glasses that
you require and fit them to your individual needs with the object
of benefiting your eyesight—and not the object of making you a
permanent wearer of glasses.

We will be pleased to have you call and have your eyes examined.

If you need glasses—you will find our cut-rate prices within reach
of your pocketbook.

Satisfaction guaranteed or money cheerfully refunded.

In the Near Future the Homes of the
Prosperous Will Be In

GOLF LINKS PARK

OVERLOOKING THE SEA

The Unrivalled Subdivision on the Pacific Coast for Charm of Situation and Superb Views

The People of Oak Bay are Almost Free From Taxation

The Municipality of Oak Bay has no Tax on improvements and only one per cent. on land. There are no cities on the Coast with a less taxation than 2 1-4 per cent. on the value of property. In Victoria it is 2 1-4 per cent on the land and on half of the value of improvements.

Supposing you have a lot worth \$1,800 and a house costing you \$3,000, the taxation in the city would be about \$75, while in Oak Bay it would not be more than \$15. At the same time there are all conveniences of electric light, water, tram service, etc., equal to those in the city.

Golf Links Park as an Investment

In all cities there are some localities where property continues to increase in value, because of its special attractiveness and its superiority over all others through its natural beauty and charm of situation. As cities grow and fill up, these spots become more valuable every day, and the sale of every other lot in other parts of the city enhances the value of property such as Golf Links Park, because of the growing scarcity of really beautiful property in other parts, and, when the improvements are carried out and people realize the high-class nature of the property in this subdivision, those interested will be able to ask almost any price for what they own.

BUILDING RESTRICTIONS

The vendors have placed adequate building restrictions on every lot of this subdivision to protect purchasers and to insure high-class residences and a desirable class of people.

Nothing Like

GOLF LINKS PARK

Has Ever Been Put On the
Market In British Columbia

THIS MAGNIFICENT PROPERTY has a frontage for its entire length on the famous Oak Bay Golf Links, ensuring for 50 years a well kept ever green velvety lawn, at the front door of the people residing in this exceptional subdivision. It has been divided into

One and One-Half, One
Acre, Half Acre and
Town Lots

To suit the requirements of the retired capitalist, professional and business man, and the artizan who takes a pride in his home and his home surroundings.

PEOPLE CANNOT BUY SUCH PROPERTY AS THIS IN OTHER
CITIES AT ANY PRICE BECAUSE IT DOES NOT EXIST

All Streets to be Boulevard- ed with Concrete Sidewalks

This subdivision will be most attractive not only because of its natural beauty, but on account of its up-to-date modern improvements. All the streets are sixty feet wide, the central twenty-four feet will be as fine a roadway as can be found anywhere, while on either side there will be four feet of concrete sidewalk with gutters and fourteen feet of boulevard. It does not take a very great stretch of imagination to picture what a beautiful subdivision it will be when these improvements are carried out. Sewers and water pipes will be laid at the same time that the streets are made and the owners are now urging the municipality to carry out these improvements at once.

Street Railway Facilities

At the present time the street car is running within two blocks of Golf Links Park and it is expected that when the extensions of the Company are carried out, upon the establishment of their new power plant on Jordan River, that the metals will be extended along Newport avenue, up Central avenue and then to connect with the May street car at Foul Bay. This is the natural route, as well as being the most direct to the Golf Links, to which there is always a considerable amount of traffic.

Electric Light, Telephone and Water.

At the present time electric light, telephone and water are already on this property, namely, on Newport avenue, and also to Dr. Jones' residence on the eastern boundary.

WOMAN'S WORK

(Continued from Page 8.)

The literature secretary, Mrs. Toller, announced that at the November meeting they should have on hand books and postcards suitable for Xmas gifts. Three birthday donations had been received.

The leaflet secretary, Miss Sill, gave her annual report, which showed the subscription list to have reached the 200 mark, and the books show a balance on hand of \$3.08.

The junior secretary-treasurer, Miss Moore, reported the formation of a junior branch at St. John's, and pointed out the objects for which each branch was working, i.e., Christ church for Saskatchewan and a baby in the Bird's Nest, China; St. Saviour's for

Alert Bay, and St. John's for the kindergarten in Japan, Lytton hospital, and the mission boat. In connection with the Indian work it was pointed out how badly the Indian school at Alert Bay are in need of a new stove and pantry, having been refused by the Indian department.

The babies' branch secretary, Mrs. Murray Thain, reported the new branch in St. James' parish.

Albert's representative, Mrs. Dickson, read a letter from Albert, expressing their thanks for the annual reports with remarks upon the president's address. Mrs. Toller and Mrs. Dickson have very kindly promised to share the office of organizing secretary during Miss Turner's absence, and Mrs. Murray Thain will take charge of the babies' branch.

Reports were received from seven senior, three girls, and three junior branches, each showing marked progress.

Miss Turner's resolution "That each parochial branch would make itself responsible for collection from others than W. A. members" \$25 during the next three months for the C. C. M. boat, was given a second reading and unanimously passed.

Upon Mrs. Wollaston's suggestion it was resolved that hereafter the corresponding secretary shall notify the branch secretaries of the W. A. meetings, and they in turn shall be responsible for handing it to the rector. In time to have it announced in church.

November 30, being St. Andrew's Day, it will be observed as a day of continual intercession by members of the W. A.

The president announced the study class at Bishopsclose for the second Friday of November. She also thanked those who had assisted in making the synod luncheon such a success.

The corresponding secretary was requested to write Mrs. Miller a letter conveying the sympathy of the W. A. Mrs. Toller read the first of her series of five minute papers upon China, considered first geographically.

The Bishop of Columbia, after thanking the ladies for their promised aid, spoke of the progress being made in collecting funds for the new mission ship. The contracts were almost ready and he felt sure it would be finished by the spring. The cost will be \$20,000.

The meeting was brought to a close by the singing of the Doxology. The ladies of St. John's then served tea.

PLANS FOR BUILDING

Western Motor and Cycle Company To at Once Erect Structure

Plans are being prepared by W. Ridgway-Wilson for a brick block, two stories high, 60 feet by 120 feet, with stores and flats at the front, and a garage for the Western Motor and Cycle company in the rear, upon the lot recently purchased from P. R. Brown and Co., and now occupied by Hayward and Dods' plumbing shop.

Another deal put through by Gillespie and Hart was the purchase of an acre of land on Douglas street, which was sold by R. P. Clark to a Vancouver syndicate for about \$5,000.

We Can Suit the Most Fastidious With a Home or Site For a Home

No. 1—HOUSE OF SIX ROOMS, standing on 4 acres of ground, with a frontage of 332 feet on the Gorge. Superb views of the Straits and Olympic Range, on Craigflower road.....\$18,000 Or will be subdivided into 1 and 2 acre blocks.

No. 2—A VERY CHOICE HOME under Mt. Tolmie; six-room house, standing in its grounds of six acres. A small lake and first-class water supply. Large quantity of fruit trees coming into bearing.....\$8,500

No. 3—A FIRST-CLASS BUY ON MONTEREY AVENUE in six acres of choice land, four-room cottage and a large number of apple trees three years old.....\$9,000

No. 4—TWELVE CHOICE LOTS, Barleith Park, Craigflower Road, to be sold in blocks of four at.....\$2,750, \$3,000 and \$3,250 on easy terms. These we can strongly recommend as being first-class investments.

No. 5—TEN-ROOM HOUSE ON DALLAS ROAD with 1-1.3 acres of land. Price as the property stands.....\$19,000 Or will be subdivided to suit.

No. 6—FOUR ACRES ON PORTAGE INLET; would make an ideal place for poultry and fruit farm; 4½ miles from postoffice. Only, per acre.....\$400

All previous record for coal handling by American vessels were broken on October 9 when the collier Everett loaded 7,269 tons of bituminous coal in 16 hours at Newport News. This was at the rate of 500 tons an hour on the average, although the cargo coal was dumped at a much faster average rate. The collier Everett, of the same fleet, recently delivered a cargo of 7,500 tons of coal at Boston from Baltimore and returned to the latter port for another cargo all in the short space of seven days, making a record trip.—Railway and Marine News.

Fermentation and Flatulence Prevented

In the Stomach by Charcoal, the Great Absorbent, Anti-Fermentative, and Deodorant.

Some years ago Dr. Belloc, a retired surgeon of the French army, turned his attention to charcoal as a remedy for dyspepsia, fermentation and flatulence, or gas in the stomach. He himself was himself a sufferer from these symptoms, and thus had an opportunity of testing personally its therapeutic action.

He decided after many tests that charcoal made of willow wood was far the best. He found that charcoal made of other woods caused a disagreeable taste in the mouth—even painful excretions of the mucous membrane, as well as thirst, and a pinching sensation in the stomach, but not one of these symptoms ever occurred when willow charcoal was employed.

He was in the habit of prescribing from two to six teaspoonsful for his patients, but he himself frequently took as much as 500 grammes, or more than fifteen ounces per day. There is really no such thing as taking too much charcoal. An excess cannot be taken, for the reason that the more charcoal is taken, the more it is entirely harmless, and through its use your system will be completely cleansed of all its impurities, the fermentation of food and the formation of gas in the stomach prevented, and the absorption of toxic products or poisonous material into the blood from the stomach and intestines stopped.

When a regular physician took as much as fifteen ounces of charcoal daily, its harmlessness and beneficial effects were demonstrated. It destroyed germ and dyspepsia, cure should be apparent to all.

The Academie Nationale de Medicine of Paris reported very favorably on a memoir which Dr. Belloc published on the use of charcoal, and in France it soon became a favorite remedy. Its reputation spread to this country and now we find charcoal lozenges extensively sold, prescribed and employed as a dyspepsia remedy. Dr. Belloc's charcoal was administered to his patients in the form of a powder stirred up in water, which was very disagreeable to the taste, and its efficacy was far less than in the form of a lozenge. Stuart's Charcoal Lozenges are a great and happy improvement upon this form of administering charcoal. They are made of the best willow charcoal, freshly prepared, and rendered exceedingly palatable by the addition of pure honey, which gives them a taste that is in strong contrast to that of ordinary powdered charcoal. Nothing could be more efficacious in its effects than charcoal given in this desirable form. Two or three of Stuart's Charcoal Lozenges taken after meals are sufficient to give complete relief. Go to your druggist and buy a box, but insist on having Stuart's, as there are many worthless imitations on the market, not made of willow wood, but of poplar, boxwood, dogwood, etc., which are not good for the system. For sale everywhere, 25 cents per box. Sample box will be sent free by mail upon request. Address: F. A. Stuart Co., 200, Stuart Bldg., Marshall, Mich.

On the Waterfront

COLLIDED WITH A FISHING BOAT

Exciting Episode of the Voyage of the Empress of Japan to This Port

RICH CARGO ON THE WHITE LINER

Brought Budget of News From Japan and Countries of the Far East

An exciting incident occurred during the voyage of the R.M.S. Empress of Japan which reached the outer wharf yesterday afternoon with a very valuable cargo, including silk and sable, and other sealings worth over a million and half dollars, and the smallest complement of saloon passengers carried by any of the white liners, but four in all.

The Empress of Japan was on her way from Nagasaki through the Inland Sea of Japan when she collided with a Japanese fishing vessel. It was about nine o'clock in the morning and the vessel was off Lady Ingle's rocks when the junk suddenly started across her bows and was run down, the crew of nine Japanese being thrown into the water. Lifeboats were quickly lowered from the Empress liner and the drowning fishermen were rescued by the boat's crew from the C.P.R. vessel. They were taken on board and landed at Shimizu the same day.

The Empress of Japan encountered squalls in the China sea and comparatively good weather when crossing the Pacific. She brought 1,301 tons of general freight, which included 1,883 bales of silk and silk goods worth approximately a million dollars, ten casks of sable and sea-otter skins, and a shipment of sealings, part of the catch of the Japanese sealers in Bering sea. The other shipments consisted of cigars, cigarettes, matting, curios, gold thread, etc.

The passenger list was a record one, being the smallest since the steamer entered service nineteen years ago. There were but four, A. H. Cobb, from Yokohama for London who debarked here, Major S. H. Galbraith from Hongkong; L. B. Dickie and S. H. Boriman from Yokohama, both for Vancouver. Of the Chinese 23 debarked here, and there were 253 in transit, 75 for Canadian points, the others bound to the United States and points beyond. There were also four Russians and three Japanese.

Wireless Record

Some long distance wireless records were made by the operator of the Empress of Japan. When leaving he was in communication with the shore stations of Japan at a distance of 1,300 miles at sea, and the Empress of India has a record for 1,530 miles. The steamer was in communication during the voyage with the Empress of India and Empress of China and spoke the Kaga Maru and Aki Maru, the latter in the Pacific following the white liner across.

Its Last Speech

Japanese newspaper reports of the late Prince Ito's last speech were received by the Empress of Japan. When welcomed at Daien he stated that his journey was taken solely for investigation, although the researches he made might be utilized at any time. He urged Japanese in Manchuria to assist in maintaining the burden of armament of Japan, and dwell on the necessity for friendly co-operation between Japanese and Chinese to promote peaceful development in Manchuria. Japan must sincerely support China in executing military and other administrative reforms as well as in the proclamation of the proposed constitution. In conclusion he declared that Japan stood for the open door and equal opportunity in Manchuria.

Railroad Disputes

Japanese newspapers received by the Empress of Japan state that if China allows the proposed construction of the Kinchow-Tsitsihar railroad by American and British capitalists, Japan will insist upon a concession from China for a railroad between Kiri and Kungling. This would give Japan railway connection between the Manchurian railroad into Mongolia. The Kinchow-Tsitsihar railroad would start about 90 miles west of the South Manchurian line and diverge toward Mongolia, yet Japanese protests are being urged that it parallels the Manchurian line, and consequently, like the Hsin-min-tung-Pakumen railroad, is provided against in the Chino-Japanese convention following the Portsmouth treaty.

Honors for Kitchener

Arrangements were made to receive Lord Kitchener with remarkable honors on his arrival in Japan, all military bodies in western Japan being ordered to parade at the stations as his train went by, while at Tokyo two infantry regiments lined the route and some troops of cavalry formed a guard of honor and a battery of artillery was sent to Hibaya park to fire a salute of 19 guns.

China's Poor Navy

China's navy was found as a result of the recent investigation to consist of twelve warships and sixteen torpedo craft of fighting capacity, three which may be repaired, sixteen suitable for coast defence and seven inefficient. It was decided to purchase the second and third class cruisers, two training ships, two destroyers and one gunboat.

Wireless Experiment

Arrangements have been made by the communications department of the Japanese government to exchange signals by wireless with the American station at Honolulu on December 1st to experiment regarding the possibility of communication over that distance.

The Excitable Korean

As a result of proclamations regarding the taking of the census on Quelpart Island off Korea, a report was circulated that war had broken out be-

tween Japan and China, and an uprising and epidemic of suicides followed.

Russian Activity
Advises were received from Vladivostok that strong garrisons are being mobilized by Russia at Blagovestchensk, Nikolsk-Ussurisk, and Manjuria station, composed mostly of mobile contingents in readiness for rapid concentration. The move was stated to be due to fear of risings in southern Ussuri.

While the Alaska Steamship Co. is not yet ready to announce its plans for recruiting its fleet, it is known that before next season opens it will have other vessels in its service. According to plans under consideration, as previously announced, these steamships are to be built expressly for the Alaska service and will be modern in every respect. Since March, 1908, this company's fleet has been reduced by four. In the month mentioned the Saratoga was wrecked near Ellamar, and last August the Ohio met a similar fate in British Columbia waters. During the summer the Pennsylvania was sold to the Pacific Mail and the latest sale was that of the Santa Clara to P. Doe, of the North Pacific Steamship Co. It is understood that the Santa Clara will operate between Portland and California in connection with the Roanoke and G. W. Elder, of Mr. Doe's fleet.—Railway and Marine News.

Slow Digestion

A Frequent Form of Stomach Trouble Readily Cured by Stuart's Dyspepsia Tablets

This complaint constitutes one of the most common forms of dyspepsia. It is the bane of those who ignore natural laws, and forget that the healthy action of the stomach is dependent on the condition of both the body and mind. Those whose pursuits oblige them to pass much of their time within doors; men of letters, and of business, whose minds are seldom perfectly relaxed; administrators, speculators, financiers, and the various professional men fall ready victims to it.

Slow digestion occurs in persons of all temperaments and habits, but is most common in those of irritable, or nervous disposition, and anxious aspect of countenance, who are popularly characterized as "dyspeptic-looking." Eating too rapidly is a common, exciting cause of the disorder, as is also imperfect mastication of food from loss of teeth.

There is also a deficiency of the gastric juices, and an insufficiency of the muscular action of the stomach, movements of the stomach walls, and the food remains entirely too long in this organ. Instead of being passed down into the small intestine at the proper time.

Even a dinner not exceeding the ordinary limits is followed at varying intervals, but usually within an hour, by a feeling of weight and oppression in the stomach. For several hours afterward the person experiences decided discomfort, and should even a light supper be taken, horrible night-mare and troubled dreams are certain to result.

"I should be quite well, if it were not necessary to eat," is a common statement made by sufferers from this form of stomach complaint. Many of them actually dread the approach of meal time, knowing what disagreeable symptoms they are sure to experience after eating; and would doubtless discontinue the ingestion of food into their stomachs altogether if it were possible to live without eating.

There is really no necessity whatever for depriving one's self of the pleasures of the table, or to starve the rest of the system because the stomach is derelict in its duty, and does not digest the food as quickly or as thoroughly as it should.

Stuart's Dyspepsia Tablets compel the stomach to perform its functions properly and assist it very materially in the discharge of its duties, a single grain of the principal digestive ingredient of these tablets being sufficient to digest 3,000 grains of food. They not only digest the food, however, but also tone up and strengthen the peptic glands, and the motor functions, so that the food will not remain in the stomach longer than necessary. Every case of slow digestion and all other forms of dyspepsia are readily curable by the use of these tablets, which make up the gastric deficiency, and supply the disordered stomach with exactly the same digestive juices that are found in a healthy, vigorous stomach.

Purchase a package of these wonderful digestors from your druggist today for 50 cents and cure yourself of your dyspepsia. Send us your name and address, and we will forward you a sample package free. Address, F. A. Stuart company, 150 Stuart Building, Marshall, Mich.

THOS. F. BAYARD REACHES PORT

Capt. Blakstad Says American Vessel Hunted Without Interference From Bear

OFFICERS KNEW SHE WAS HUNTING

Arms on Victoria Schooner Sealed—Water Refused Sealers

Much new light is thrown on the arbitrary interference with the Victoria sealing schooners Pescawha, Jessie, and Thomas F. Bayard, and the sealing of their firearms by officers of the United States revenue cutter Bear by the return of the Thomas F. Bayard yesterday. After a rough passage from Akatan, whence she sailed October 13th and encountered a series of gales en route south, the Thomas F. Bayard, Capt. Hans Blakstad, top-liner of this season's sealing fleet, was towed to port this afternoon by the tug Edna Grace, bringing 921 sealskins and six sea-otter pelts. Capt. Blakstad reported that while the three Victoria sealers were stopped on the high seas, searched most thoroughly for sealings without any being found on board, and had their firearms sealed up, thus putting an end to their season on the sea-otter grounds, an American schooner was engaged nearby with knowledge of the American captain who sealed up the arms of the Canadian schooners, and no attempt was made to interfere with the work of the American vessel.

Capt. Blakstad when drawing the attention of Capt. Berthoff of the U.S.S. Bear to the illegality of sealing up the schooner's firearms as there was nothing whatever in the sealing regulations with regard to the hunting of sea-otter for which purpose the vessel was regularly cleared from Victoria, as her papers showed, interrogated him regarding the American vessel's knowledge of the American captain who sealed up the arms of the Canadian schooners, and Capt. Berthoff had replied: "We can do nothing with him."

Yet, while he stated that nothing could be done by him regarding his own nationals who were hunting sea-otter, Capt. Berthoff had the firearms of the Thomas F. Bayard, and those of the Jessie and Pescawha which had previously returned to port sealed up under threat of seizure if the seals were broken before August 1st within the area prescribed by the sealing award.

Harass Canadians

The story told by Capt. Blakstad of the Thomas F. Bayard would indicate that the captain of the Bear had gone deliberately to break up the other hunting business of the local schooners, and would seem to verify the reports that the policy of the United States was to so harass the Canadian sealers that their business was made useless to them.

Capt. Blakstad was at a loss to know why Capt. Applegate, an American, was permitted to go from Dutch harbor, Alaska, with a schooner flying the United States flag, to hunt sea otter, taking 17 for the season, without interference, while the U. S. revenue cutter was taken up to the same grounds, and engaged on the high seas, many miles beyond the bounds of the international limits.

Capt. Blakstad said: "I had three unskinned sea-otters on deck when the Bear came up, steaming through where the hunters were at work and discharging the otter. It was a splendid day for hunting. There was not a ripple on the water, and you know good weather is needed for otter hunting. Last year in the three days on the sea-otter grounds we only got twelve hours of hunting weather, but we took 22 sea-otters. This year on the day following that on which our rifles were sealed up, June 23rd, there was not a breath of wind, not a flicker, and the sea was like glass for 24 hours. We would have made a great catch of sea-otter that day, for we were right in amongst the herd."

Search Schooner

"When the Bear came up, he came over close to us and a boat's crew boarded the Bayard. When the officer came on board he asked us 'What are you doing here?' I told him we were hunting sea-otters, and he asked to see our papers. I showed them to him and he looked them over, and then said he was going to search the vessel. The men with him made a thorough search for sealings. They didn't overlook any places. They looked in the men's bunks, in the barrels, everywhere a skin could possibly be hidden if there had been skins on board to hide. When they were through I asked him if he was satisfied, and he said then that he intended to seal up our firearms."

"I asked him why he was going to seal up our firearms, and showed him there was nothing in the regulations providing for sealing up the arms. He said he had instructions to do it, and was going to do it. I told him we weren't sealing. I pointed out our clearance for hunting sea-otter and sealing, and while the closed season was on we weren't doing any sealing."

Sealed the Arms

"The officer, Lieut. Wheeler was his name, said he had orders to seal up the arms on board and was going to do so. He said that it was the closed season for sealing and the arms should be sealed up. Well, seal up the spears, said I, for that's what we use in sealing, and if you want to seal up the shotguns, but leave our rifles for the work of hunting sea-otter. He wouldn't do anything, but seal up the whole of the rifles and shotguns and I went on board the Bear to make a protest."

"Capt. Munro of the schooner Jessie, came on the Bear at the same time as I was there, and I suggested to him

Auction Sale of Government Lands

AT POINT GREY

On Monday, November 15th, 1909, we will place on sale—for the Provincial Government—by Public Auction, at the Horse Show Building in Vancouver, B. C., certain parcels of land, comprising in all 660 acres, more or less, described as follows:

A portion of D. L. 139, situated between Sixteenth Avenue and the Chaldecott Road, containing 383 acres, more or less, subdivided into parcels of from 1.68 acres to 3.79 acres; to be sold without building or subdividing restrictions.

A portion of D. L. 540, comprising 152 acres, more or less, and subdivided into parcels of from 2.24 to 2.69 acres; to be sold without building or subdividing restrictions.

A portion of D. L. 140, containing in all 130 acres, more or less, and situated between Sixth Avenue and the Marine Drive and lying immediately west of that part of Point Grey District now known as Jericho. Lots in this portion will contain from one-half acre up to 4.45 acres, described as follows: Blocks numbered 1 to 7, inclusive, and all lots in blocks numbered 129 and 32, being a subdivision of D. L. 140. These lots will be sold under building conditions which will require the erection of one dwelling house on each lot or pair of lots offered as one parcel; and all purchasers of said lots shall be required to enter into an agreement not to subdivide or sublet any portion of any lot or pair of lots offered for sale as one parcel. All lots in Block 1 of D. L. 140 will be sold in pairs.

TERMS FOR THE SALE OF THE ABOVE LAND WILL BE ONE-QUARTER CASH AND THE BALANCE IN THREE EQUAL ANNUAL PAYMENTS. INTEREST, SIX PER CENT.

Point Grey is to be Vancouver's most fashionable and beautiful residential district. This property is uniquely situated, with a splendid elevation facing the Gulf of Georgia, Howe Sound and English Bay, and in a few years will be the most beautiful residential district in North America. This will undoubtedly be one of the most important sales of land that has ever taken place in this province, and any person interested in Vancouver real estate should not overlook an opportunity to be present.

A map showing the exact locality of the parcels of land to be sold can be seen at our office. Copies for distribution will be ready in a few days and can be had on application.

that we break the seals and continue sealing if we could get the Pescawha, and let the Bear seize us if Capt. Berthoff wanted to. The whole thing was illegal, anyhow.

Log Entries

"This is what the boarding officers who sealed up our arms wrote in the log:

"This is to certify that I have this day examined the British schooner Thomas Francis Bayard and found no sealings on board. Three unskinned sea-otter carcasses were on deck. There was no entry in the log subsequent to May 31st, 1909."

"By order of the commanding officer of the revenue cutter Bear I sealed up this day eight (8) rifles and fifteen (15) shotguns. The master is forbidden to break the seals while the vessel remains north of 35 degrees north latitude and east of 130 degrees west longitude during the closed season."

"Wm. H. J. Wheeler, 1st Lieut. U. S. R. C. S., ex-officer U. S. revenue cutter Bear."

"E. D. Jones, 2nd Lieut. U. S. R. C. S., 'Chelluk' Island, bearing southwest 12 miles, June 23rd."

Entered on the same page of the log Capt. Blakstad noted that he broke the seals after passing the limits as ordered. He wrote:

"I this day, July 10th, I broke the seals on the shotguns and rifles in 58.05 north latitude; longitude 169.55 east."

"Hans J. Blakstad."

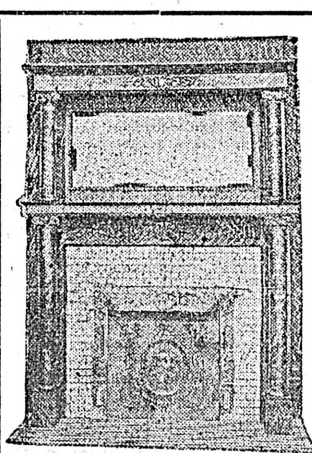

Came Again

The day following the sealing of the firearms of the Thomas F. Bayard the Bear came back, and the seals were examined. The Thomas F. Bayard then set sail and proceeded to the grounds off the Copper Islands, where 103 skins were taken, and on August 17th she reached Dutch harbor on her way into the Bering Sea.

"I certify that this day I boarded the schooner Thomas F. Bayard, of Victoria, and found 103 sealskins and 6 sea-otter skins aboard. The firearms, consisting of 8 rifles and 13 shotguns, were found to be sealed up."

Water Refused

The wharf owners at Dutch harbor refused to supply the sealing schooner with water, and the authorities stated they would not give her permission to take water. Capt. Blakstad was without a supply of water on board, and sent boats to a small creek across the bay where the casks were replenished, and the following day, in the face of a strong gale, the schooner put out on her way into the Bering Sea.

(Opposite Court House)

his dead body lay in his bunk, and would not touch the body or get it ready for burial.

Two Runaways

When the schooner was on her way north near the close of the spring season, two Indian hunters deserted the vessel off Goose Island. They put a canoe overboard and made off with rifles, ammunition and stores belonging to the schooner, much in debt to the vessel, both having drawn advances of \$120 and \$140 before leaving port. The schooner soon afterwards put in at Goose harbor with her chronometer broken. The skins taken on the coast cruise, 407 in all, were landed at Port Simpson.

The schooner Vera, Capt. George Heater, is following the Thomas F. Bayard, which passed her off Ucluelet, and the Vera, with \$13 skins on board, is expected to reach port tomorrow.

THE GREAT GRANITE DEVELOPMENT SYNDICATE IS CAPITALIZED AT ONLY \$500,000—LESS THAN \$700 AN ACRE. MANY AN ACRE AT CRIPPLE CREEK OR KALGOORLIE HAS PRODUCED FIVE MILLION DOLLARS.

GOLD TELLURIDES

THREE HUNDRED MILLION FROM
CRIPPLE CREEK IN GOLD TELLURIDES

THREE HUNDRED MILLION FROM
KALGOORIE IN GOLD TELLURIDES

THE ORIGINAL DEVELOPMENT SYNDICATE OF KALGOORLIE'S "GOLDEN MILE" OF GOLD TELLURIDES IN FIVE YEARS PAID SIXTY FIVE MILLIONS IN DIVIDENDS

GOLD TELLURIDES! Do you know what that means? Tellurium is the only element that combines chemically with gold. The resulting ore is known as GOLD TELLURIDES.

Rich free gold veins have been found all over the world. Sometimes the values go down, sometimes not. This perhaps you know to your sorrow.

GOLD TELLURIDES are primary ores; that means there is no surface enrichment; that means that the values always go down.

Do you know that the two gold camps which have yielded the highest values and quickest returns in the world are GOLD TELLURIDE camps. Cripple Creek and Kalgoorlie.

You have heard of the LUCKY JIM at GRANITE BAY, Valdes Island, a little over a hundred miles from Vancouver. The LUCKY JIM was good enough without tellurides—a big high-grade gold-copper vein of great length and twelve feet wide.

But the other day we found the first telluride chute; we were looking for it, because we had found the tellurides scattered through the vein.

Our Consulting Engineer, a man of the highest professional standing, states in his report that on a tonnage of 100 tons of gold copper ore a day, exclusive of the high grade tellurides, there will be a NET profit of \$850 a day.

Here are some of the assays from the Lucky Jim GOLD TELLURIDE ores:

	Gold, oz.	Value

The holdings of the Great Granite Development Syndicate, Ltd., are less than three miles from tidewater. The LUCKY JIM mine is connected by its own branch (already completed) with a standard gauge railway to the splendid harbor of Granite Bay. A fine camp is built. A big shaft is being put down.

On the syndicate's property, in addition to the Lucky Jim, there are a number of other parallel veins. Half a mile away from the Lucky Jim is one of the largest ore outcroppings on the coast—the "GREAT GOLD"—where we have exposed 20 feet in width of solid ore similar to that of the Lucky Jim. We expect to find the tellurides there also. Tellurides have been found at points half a mile apart.

We believe we have on our property the making of not one but a dozen great mines.

The Great Granite Development Syndicate offers you its Convertible Debenture Bond at \$100, giving you 7 per cent. interest from date of purchase, and gives you five shares of Original Syndicate Stock in the whole 800 acres of its properties.

Even if before July 1, 1911, the shares are worth \$100 or \$1,000 each, you have the right until that date to exchange that bond for ten more shares—15 shares in all.

With Gold Tellurides already twelve inches wide in the Lucky Jim, you can estimate what your profits are likely to be on fifteen shares, which will have cost you only \$6.66 a share.

The original One-dollar Shares of the Hudson's Bay Mine at Cobalt are Now Selling at One Hundred and Fifty Dollars a Share. The Man who put \$100 into These Shares in 1904 Has Already Received \$14,000 in Dividends, and Still Holds His Shares, Which Are Worth Today \$15,000, Making \$29,000 Return on a \$100 Investment in a Canadian Mine. We Conscientiously Believe That What We Offer You Today Gives You an Equal Chance to Make a Little Fortune.

We are not selling shares at 10 cents on an enormous capitalization.

We are not doing this, on principle. We waited until the development was at its present stage BEFORE ASKING Victorians to invest. We wanted to give you security. We wanted to take the initial risk ourselves—to be pretty sure that we had big mines before we offered a share in them to you.

A DEBENTURE BOND WITH SHARES.

MEANS THAT YOU HAVE SECURITY AND YOU HAVE YOUR CHANCE FOR A SMALL FORTUNE—BOTH.

Not one cent of this money from these subscriptions will go into "promoter's profits." This is an offering of a company believing, on expert knowledge and reports, that it has some of the world's great mines on its 800 acres. This company refuses to sell its property.

The Preliminary Work Is Done. We are Ready for Immediate development on a Large Scale.

THE SYNDICATE OFFERS

for subscription at par (\$100) its 7 per cent five-year CONVERTIBLE DEBENTURES, with a bonus (free) of \$50 in fully paid SYNDICATE SHARES (with each debenture five shares.)

The subscriber has the privilege of EXCHANGING his \$100 debenture into ten shares of Great Granite Development Syndicate stock at any time before July 1, 1911.

Debentures may be purchased for \$25 cash and \$25 monthly. Send your subscriptions now. We are making only a limited offering on these terms.

Every expert who has seen the "Great Gold" on our property has wanted to buy it for capitalists. But we held it to make our offer to you—an offer as big with possibilities as the offer of the Original Syndicate of the "Golden Mile" at Kalgoorlie.

In a few months from now, when your money has made the Lucky Jim the great shipping mine that you believe with us is there, the public will be stumbling over itself to buy the "Great Gold" bonds and shares (for development).

Do you realize that this Debenture and Shares you buy now in the Original Syndicate gives you your share in that "Great Gold" and every other last bit of mineral wealth developed on those 800 acres of gold mines?

Meanwhile you will have had 7 per cent on your money, because the Debenture Bond is a loan to the Syndicate to develop the property for your profit. The 15 shares and their rise in value is your speculation.

Our offer appeals to the man who knows how quickly, a hundred dollars in mines can turn into a thousand.

VICTORIA WEST DEFEATS A. O. F.

(Continued from Page 9.)

Sargison, Gregg and Connell, and one in the last half by Connell, made the tally. R. Lorimer refereed the game. The teams were: Beacon Hill: Goal, Robertson; full backs, Gregg and Walsby; halves, Dillinger, James and Barber; forwards, Thomas, Young, O'Rourke, Sargison and Connell. Esquimalt: Goal, Harris; full backs, Bolton and Stewart; halves, McArthur, Stewart and E. Young; forwards, W. Stewart, E. Young, Ford, Gerrod and Chapman.

Wards 5, Baraca 1

A goal scored just before the call of time saved the Baraca second division soccer eleven from a white wash at the hands of the North Ward team yesterday afternoon at Beacon Hill park. As it was the Wards had an easy victory winning as they pleased by the score of five to one after a game which was practically featureless. The Wards showed more speed, better team play and more aggressive play than the Baraca. The Baraca played hard to stem the victorious gale of their opponents they were outclassed. At half time the score stood 4 to nil in favor of the Wards and in the second half, in which the Baraca eleven showed much better form, one more tally was made by Harrison off a penalty kick. The other goals were scored by Taylor who notched two, while McDougall and McGregor also tallied. Sinclair, for the Baraca caught the net a few seconds before the call of time. The referee was an efficient referee. The teams were as follows:

North Wards: Goal, Banes; full backs, E. Sweeney and McDonald; halves, McDougall, Brown and Lane; forwards, Winslow, McGregor, Taylor, Harrison and Hudson. Baraca: Goal, Tait; backs, Davis and Sherrett; halves, Bishop, Heath and Pomfret; forwards, Middleton, F. Middleton, H. Sherrett, G. Sherrett and J. Miller.

Garrison vs. James Bay

An even score was the result of the soccer match at Work Point yesterday afternoon between the Garrison and James Bays, both teams scoring three goals. The match was very evenly contested throughout, some hard checking being done on both sides, the result of which is that Pat Lawson, of the Bays was put out of the game with a badly injured shoulder, and it is very likely that he will be unable to play for some time. Scoring started early in the game, Fairley securing the first for the Bays, but it was not long before Buxton tallied, and the teams turned over at half time with the score even. On resuming play the Garrison took the lead, and held it for some time, but eventually Todd, who by the way played a good game throughout, scored, a penalty kick given on a foul off Hughes resulted in Elton going the point, which again put the soldiers in the lead. With a very few minutes to play, and with one man short, it looked very bad for the Bays, but two or three minutes before time Todd again scored, and time was called, leaving the teams even with three goals each.

LEAGUE IS ORGANIZED

Age Limit for Basket Ball Players is Again Retained

The annual general meeting of the Victoria city and district basket ball league was held last evening in the Y. M. C. A. rooms. A. J. Bruce occupied the chair.

Present there were D. S. Tait, representing Victoria West; K. T. Hughes, of the J. B. A. A.; W. G. Findlay and Jones, Y. M. C. A.; C. Cousins and Mackenzie, representing the North Ward Athletic Club; J. W. McArthur, representing the Y. M. C. A.; Rome and Holden, of the newly formed Bankers' team.

Discussion upon the proposal to adopt the standard of weight limits instead of age limit took place, but it was decided to retain the latter. It was decided that entries for all divisions must be in by November 17th. The election of officers resulted as follows: President, A. J. Bruce, re-elected; vice-president, D. O. Sullivan, re-elected; secretary, E. Christopher, assistant secretary, R. M. Jones; treasurer, K. P. Hughes; executive, D. S. Tait, R. Peden, W. G. Findlay and C. Cousins.

Basketball

At a large meeting of bankers held in J. B. A. A. rooms yesterday evening, it was decided to form a basketball club for season 1909-10, and also to enter a team in the local intermediate league. Arrangements are under way to arrange games with the Vancouver bankers and the Duncans teams. Officers were elected as follows: Captain, Fred Rome; manager, C. W. Holden; secretary-treasurer, L. R. Lloyd. The colors decided upon were red and white, the same as last year, and the name of the team "The Victoria Bankers."

Odd Fellows' Social

Columbia Lodge No. 2, I. O. O. F., will hold a social on Wednesday evening in their hall, Douglas street, to which all Odd Fellows and their families, together with the Sisters of Rebekah are cordially invited.

To Lecture on Earthquakes

A very enjoyable and instructive evening is promised the people of James Bay district on Monday, November 8, when Mr. P. Napier Denison, Dominion government meteorologist, will deliver an address on "Earthquakes." The entertainment will be under the auspices of the Epworth League of James Bay Methodist church, corner of Michigan and Menzies streets. No admission will be charged and all wishing to attend will be very welcome. The lecture will be illustrated by lantern views.

Thrown from Horse.

Miss Margaret Keith while out riding last evening on the Cadboro Bay road was thrown from her mount and alighting with force upon the ground sustained a fracture of her right ankle. She was taken to the Royal Jubilee hospital where her injury was attended to and the broken ankle set. The accident occurred shortly before 8 o'clock but it was some time before Miss Keith arrived at the hospital suffering great pain which she bravely endured. She will be forced to remain at the hospital for some time.

Missing a Week

Alarm is expressed for the safety of Leslie Alwell, a young Englishman who arrived in the city a week ago from Prince Rupert, but who since Sunday last, when he left his boarding-house on 840 Cormorant street, has not been seen. The young man was well connected in England, and had been in Canada for the past year. On Sunday last he left home to work as a longshoreman on a vessel un-

Strong Help for Weak Kidneys

"Fruit-a-tives" is the Best Kidney Medicine in the World.

If people only realized the danger of Weak Kidneys, and the value of "Fruit-a-tives," there would be practically no Kidney Disease in Canada. When the kidneys become congested (too full of blood) or strained from overwork, they can quickly be made well and strong again by taking a box or two of "Fruit-a-tives."

Pain in the back, frequent headaches, loss of appetite, sleeplessness, coated tongue, constant desire to urinate—these are the common symptoms of congestion of the kidneys.

The only possible way to relieve this congestion, is to force the bowels and skin to rid the system of morbid waste matter, and thus allow the inflamed kidneys to rest and grow strong again.

"Fruit-a-tives," being fruit juices, intensified, soothes and stimulates the kidneys, and at the same time rouses the bowels and skin to healthy action. "Fruit-a-tives," by their prompt action on the bowels and skin, instantly relieves the intense pain in the back and promptly takes away every trace of Kidney Disease.

If you are suffering with your kidneys, begin at once to take "Fruit-a-tives," and you will quickly realize the value of these tablets.

At dealers—50c a box, 6 for \$2.50, or trial size, 25c—or from Fruit-a-tives Limited, Ottawa.

Notice to Creditors

Re Henry William Lomas formerly of Stelz's Restaurant, Yates Street, Victoria, B. C.

NOTICE IS HEREBY GIVEN that all persons having any claims or demands against Henry William Lomas, formerly carrying on the business of a restaurant proprietor in Yates St., Victoria, B.C., upon the premises known as Stelz's Restaurant, are hereby required to send particulars of their claims to the undersigned solicitor for the Assignees of the estate of the said Henry William Lomas, on or before the 25th day of November, 1909. After that date the Assignees will proceed to distribute the assets of the said Henry William Lomas among the parties entitled thereto, having regard only to the claims of which I shall then have notice, and that the said Assignees will not be liable for the assets or any part thereof so distributed to any person of whose debt or claim they shall not then have had notice.

Dated this 19th day of October, 1909. CLAUDE REMI, Solicitor for the Assignees of the said Henry William Lomas, Law Chambers, Bastion Street, Victoria, B. C.

loading at the outer wharf. He was seen when this work was completed, and after the sailing had been heard of him. In appearance he was short and rather thick set, about 5 feet 5 inches in height, and was 25 years of age. He wore a dark overcoat covering a blue flannel suit with light stripes. There is no known reason for his disappearance. The police have been informed of the facts.

Opens New Bridge.

BRANDON, Man., Nov. 6.—The new bridge over the Assiniboine river at First street was thrown open for traffic for the first time yesterday. It is estimated that the cost of the structure will be in the neighborhood of \$80,000.

Blood and Skin Purification

Is Best and Most Quickly Accomplished by Using Stuart's Calcium Wafers

Ever since the world began, mankind has suffered from various forms of skin and blood diseases. We find mention of certain diseases of the skin in writings which have come to us from periods of greatest antiquity, especially those of the Greeks, Egyptians and Hebrews, many of the diseases being described with great minuteness.

The glands of the skin are known as the sebaceous, or oil glands, and the sudoriferous or sweat glands. The sebaceous glands secrete the oil, and their main duty is to keep the skin soft and flexible. When these glands fail to act sufficiently, there is a dry, harsh condition of the skin, which becomes wax-like in appearance; but if they are over-stimulated, as in certain nervous and blood diseases, too much oil is secreted and poured out on the skin's surface, giving the appearance of "oily skin," or "greasy complexion," as it is termed. When this condition is present, dust particles settle upon the skin and adhering to the oily surface, block up the outlets to both the oil and sweat glands.

The muscles of the skin, which are in a way connected with the sebaceous and sweat glands, play an important part in keeping the pores and glands open, as each time the muscles contract, pressure is made upon the glands, and their contents more or less forced out. The skin of the face does not have the advantage of the glandular secretions, and therefore very readily becomes clogged with impurities, thus furnishing one of the principal reasons for the prevalence of pimples and blackheads upon the cheeks.

In nearly every form of skin disease and clogging of the glands the blood is primarily at fault, being filled with impurities which, through weakness or perverted function, it is unable to eliminate properly. Of all the remedies on the market for the cure of skin and blood diseases, STUART'S CALCIUM WAFERS have, after many tests, been pronounced the most efficient and powerful. They have been remarkably successful in curing pimples, blackheads, clogging of the oil and sweat glands, carbuncles, eczema, scurfy, ulcers and many other skin humors arising from an impure condition of the blood.

They tone up the skin glands so that a normal amount of oil is secreted, and through their use one need not suffer from either an oily skin or an abnormally dry skin. The perspiration glands are also made to functionate normally, and as the blood is at the same time purified, all forms of skin troubles are terminated and cured.

Purchase a package of Stuart's Calcium Wafers from your druggist at once for 50 cents, and rid yourself of skin troubles and blood diseases. Send us your name and address for a free sample package. Address F. A. Stuart, Company, 175 Stuart Building, Marshall, Michigan.

MOORE & WHITTINGTON, Owners, 865 Yates St.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

Fire Proof Buildings and the Men Who Make Them

Modern business architecture is as marvellous in its evolution as modern shipbuilding. The days of the old-time wooden walls of buildings as well as floating forts and merchant argosies has passed.

The days of steel and steam, of cement and granite, of SOLIDITY and SECURITY are the days of the present. Fire, earthquake, hurricane, the primitive elements of devastation are impotent in their assaults upon the perfected handiwork of the modern builder.

THE STORY OF THE SAN FRANCISCO EARTHQUAKE AND OF THE TEXAS HURRICANE IS THE STORY OF THE TRIUMPH OVER THE ELEMENTS OF CEMENT, STONE AND STEEL.

SAFE AND SOLID MODERN STRUCTURES MUST HAVE THE RIGHT FOUNDATION—AND THE FOUNDATION GOES DOWN BELOW AND BEYOND THE CELLAR.

THE KNOWLEDGE, SKILL, EXPERIENCE AND EQUIPMENT OF THE ARCHITECT ARE PRE-REQUISITES. WITHOUT THEM THE BEGINNING IS WRONG.

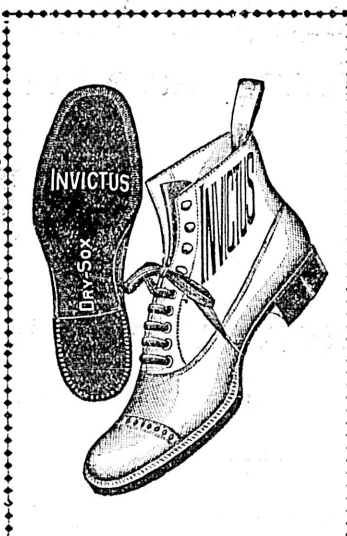

THE MAN WHO WOULD BUILD RIGHT MUST BEGIN RIGHT.

To those contemplating the erection of modern fireproof buildings, MR. THOMAS HOOPER, Architect, invites attention to the fact that he has now one of the MOST PROFICIENT AND EXPERIENCED STAFFS FOR THE SPECIAL HANDLING OF THIS HIGHLY IMPORTANT CLASS OF WORK to be found on the Pacific Coast. Mr. Hooper has himself made A SPECIAL STUDY OF THIS TYPE OF MODERN BUILDINGS, and at the present time has several large and important office buildings under erection, in addition to Public Buildings, and residential work.

He has his offices—both in VICTORIA and in VANCOUVER—thoroughly equipped with competent draughtsmen, and his organization and system for handling works of the largest order and highest class are of the very best. Recently Mr. Hooper has secured the services of MR. CHARLES A. GLOCKER, who is an ACKNOWLEDGED EXPERT ON REINFORCED CONCRETE CONSTRUCTION AND FIRE-PROOFING OF BUILDINGS generally. Mr. Glocker will hereafter have complete charge of all buildings erected by Mr. Hooper, as Superintendent and Inspector on the Works in Victoria.

THOMAS HOOPER

EVERYTHING GOES !!

I Want Cash! I Want It Quick!
Here's How I Propose to Get It:

I HAVE 48 BIG LOTS shown on the accompanying maps. They are within 2, 6 and 8 minutes from three different lines of street railway. Water mains are already laid to them. The soil is good, the ground level and free from any hindrance to cultivation. The situation is in the warmest and most sheltered part of the city. A petition is in for sidewalks and other local improvements on the property. Another petition is in for a car line through the property. Lots with the same relative advantages cannot be bought in Edmonton, Calgary or Vancouver for less than \$500 to \$800 each. Lots side by side with those I am offering have been sold and are now selling for \$350 to \$500. They will continue to advance.

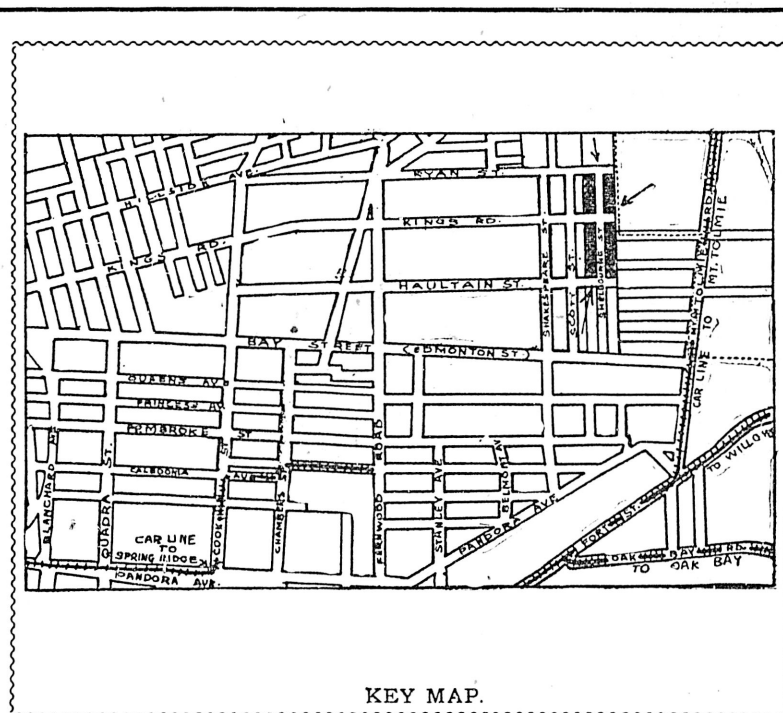

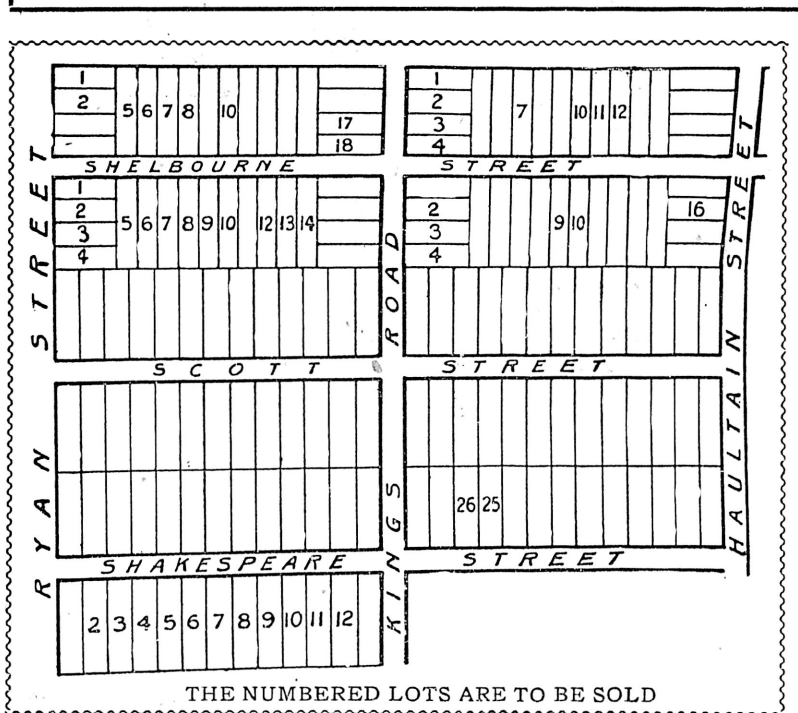

FIGURE ON YOUR CHANCES

Commencing MONDAY, NOV. 8, at 9 a. m., and ending SATURDAY EVENING, NOV. 13, at 9 p. m., I will place these 48 LOTS ON SALE at the staggering price of

\$ 2 5 5
PER LOT

TERMS: \$25 CASH
and \$10 Per Month

LIBERAL DISCOUNT FOR CASH

An automobile will leave my office at 10 a.m. and 2 p.m. daily for the property.
Come in and choose your lot, and pay a deposit on it. If, after seeing the prop-
erty, you are not perfectly satisfied—your money given back with a smile

Mrs. Love is back after a five months' visit to England.

GOLF LINKS PARK

Delightful Subdivision of Oak Bay is Put Before the Public

It is questionable if a more handsome booklet has been issued at any time in connection with the launching of a business proposition in this city than that dealing in description and argument as to the advantages of the beautiful subdivision known as Golf Links Park, Oak Bay, which has now been put on the market. The booklet represents the best style of the printer's and the illustrator's art, type and camera having worked harmoniously together in presentation of the charms of the district in which investors are urged to select residential sites. Nor is the brochure in any respect more attractive than the proposition with which it deals. Of all the many recent additions to Victoria's delightful residence sections, it is much to be doubted if any combines so many allurements as Golf Links Park. Scenically no near-at-hand neighborhood is so peculiarly attractive. Contiguity to the city's services in tramway, light, water, power, sewerage, etc., enable the inhabitants of this progressive suburb to enjoy in combination the comforts of the city and the multiplied delights of the country—with room to breathe, clean, pure, exhilarant air, flowers and sea view and sunshine.

Being just outside the city enables the fortunate residents-to-be of Golf Links Park to enjoy low rates, progressive and economical municipal administration, and at the same time all that city life holds of advantageous character. Restrictions are to be placed on sales providing for a creditable class of buildings, and those who acquire homes in the new district may count upon its continued social exclusiveness—using the abused term in its best significance. Either for speculation or investment—and more particularly the latter—the vendors of property in Golf Links Park would seem to have a particularly attractive proposition.

Captain Horn, of Port Townsend, came over to Victoria yesterday.

G. E. Robinson, of McGill College, Vancouver, was in the city yesterday.

Miss Beanlands left last night on the Charnier for Vancouver.

Miss Carroll went over to Seattle last evening on a short trip.

Miss Ethel Saunders, who has been in Seattle for a few days, returned yesterday.

Mrs. F. J. Clark was a passenger on the Princess Victoria, from Seattle, yesterday.

Mrs. Hope and maid and Miss Dunsmuir leave by the Overland route today on a visit to San Francisco.

George E. Oliver left yesterday via the Northern Pacific on a short business trip to Billings, Mont.

H. A. Howel, of the local customs department, went over to Seattle on the Charnier at midnight.

C. Pendray left last night on the Charnier for Vancouver on a short business trip.

J. W. Ambrey went over to Vancouver last night on the Charnier on a short business trip.

Among the passengers on the Charnier for Vancouver last night were: C. H. Wilson, E. S. Rowe, J. J. Turner, W. H. Hargrave.

Mrs. Waters and child, who have spent the past five months at Aston House, Michigan street, left on this morning's train for Nanaimo.

Mrs. Tom Gore had a five hundred party on Wednesday. The hostess wore a very handsome white satin dress. Mrs. Dunsmuir won the prize.

A reception for the delegates and officers of the Council of Women will be held at Government House on Monday.

Mr. Elwell, who was called to Snohomish by the death of his mother, returned to Victoria yesterday with his father.

Mrs. G. W. Haynes will not receive until the second Friday in December, as she is visiting her daughter in Vancouver.

Mrs. G. Parrie, Quadra street, entertained a few friends on Friday afternoon, in honor of Mrs. C. S. Coates, of Spokane.

George Hedge left yesterday for New York, whence he will sail on the Lusitania on an extended trip to the Old Country.

Mr. and Mrs. George Bralk, who have been visiting in the city, left yesterday for their former home at Parsons, Kas. They will return to Victoria and take up their residence here.

Mrs. Frederick J. Hall, Jr., 120, Ontario street, will be at home on Wednesday, November 10th, and afterwards on the first Wednesday of each month.

Mr. Herbert Macklin, of Simon Leiser and Co., Ltd., was a passenger on the Princess Beatrice, leaving Victoria last night for Queen Charlotte Islands, on business in connection with his firm.

G. F. Smith, recently principal of Rosedale School, Toronto, has arrived in the city, and will enter into business with his brother, J. H. Smith, prior to his departure from the East. Mr. Smith was banquipped by sixty school principals.

Regimental Orders

Our Men's Clothing Department Leads in Every Way

Three Things Which Will Interest Every Man: "Style, Quality of Materials and Value."

These are the most important items to consider. The Men's Clothing carried in stock by us is always reliable; the styles and designs are the very latest produced; the quality of materials used in the construction is the best; the workmanship and finish of the highest possible standard; while the values we offer at all times have made this the most popular place to purchase Men's Clothing hereabouts. We have just received and unpacked a splendid assortment of the newest and most up-to-the-minute styles that could be had, both in single and double-breasted effects, made of fine, imported tweeds and worsteds. Prices range from **\$10.00 to \$25.00**

Men's New Toppers at \$12.50

We are showing an exceedingly fine line of the newest style in Men's Toppers. These are made of fine black English chevrot, splendidly tailored and finished. Considering the quality, the price is low. **MEN'S HEAVY TWEED WORKING PANTS** at **\$1.50**

Men's Overcoats from \$10.00 to \$25.00

No matter what class Overcoat you need, you will find your taste well suited here, either in English Chesterfields or full length Cravenette Raincoats, in shades of fawn, greys and blacks.

High Grade Hats for Men at All Prices

MEN'S HATS—The section devoted to men's hats includes the very latest blocks, imported from the world's foremost hat manufacturers, including stiff and crush styles. A specially fine line at **\$2.50**

Our Boys' Clothing Section

Is replete in every detail, clothes of the right kind, strong, serviceable and dressy, clothes for the real boys, at prices to meet every purse, being the predominating feature of this section.

Special Offerings in Bow Silk Ties for Ladies

LADIES' SILK BOW TIES, with fancy ball and jet ends. Colors, white, pink, sky, rose, mauves, browns, navy, green and black **25c**

LADIES' FANCY TIES, of nice, soft quality satin, with fancy ends trimmed with jet buttons. All good colors **50c**

LADIES' FANCY TIES, of duchesse satin, with jet slide and fancy gilt beaded drop ends. Colors, sky, pink, rose, electric, greens, browns, navy, blue and black **50c**

LADIES' BLACK SATIN STRING TIES, with 3 jet slides and fancy jet fringed ends **75c**

Boys' Norfolk Suits at \$2.75

Our showing of these popular priced suits is indeed varied. They are made of fine Canadian tweeds and are just the kind for everyday use.

BOYS' CAPS in tweeds and serges, fancy shapes, 75c, 50c and **25c**

Boys' 3-Piece Suits at \$4.50

We make a specialty of Boys' Three-piece Suits at \$4.50. They are made to wear well, look well, and are a suit which every mother will be pleased to see her boy dressed in.

BOYS, KNEE PANTS, in tweeds and serges. Per pair **75c**

Substantial Savings on Boys' Reefers at \$1.50 and \$1.75

You could not do a more sensible thing than purchase one of these desirable little coats for the little man. They are in double-breasted effects, in serges and English chinchilla cloth. Considering the extreme moderation of prices, they should move quick. \$1.50 and **\$1.75**

Special Offerings in Battenburg Doylies

Regular price 50c. Monday **25c**

We are showing in our Broad Street windows an exceptionally fine assortment of Doylies. These are in a number of very artistic and attractive designs, and sell regularly at 50c each, but in order to make a complete clearance of these we are placing them on sale Monday at **25c**

A Few Patent Medicines and Toilet Articles From Our Large Stock

Laxative Bromo Quinine Tablets. Per box **20c**
Ammoniated Tincture of Quinine, in soluble capsules (each equal to 1 teaspoonful of the tincture). Per box **20c**
Eucalyptus Oil (genuine). Per bottle, 20c and **15c**
Dr. Wood's Norway Pine Syrup, 45c and **20c**
Gray's Syrup of Red Spruce Gum **20c**
Chase's Syrup of Linseed and Turpentine, 50c and **20c**
Shiloh's Consumptive Cure **20c**

Rosseau's Syrup of Pine Tar and Cod Liver Oil **35c**
(A valuable remedy for all throat and lung troubles)
Scott's Emulsion, 90c and **45c**
